VOL. XXVI BELLEFONTE, PA., THURSDAY MORNING, JUNE 27, 1895. NO. 26

NIPPED IN THE BUD.

The Berlin Police Think They Baffled the Anarchist.

Berlin, June 23.—The officials, especially the officers of the police department, are congratulating themselves upon the fact that the presumed anarchist plot to spoil the fetes by the commission of outrages peculiar to the sect were baffled, According to current report the anarchists had arranged for a grand coup at the outset by blowing up the artificial island in the Alster river. Anonymous letters were received by the Berlin officials warning them that such an attempt was contemplated and would be made if the most vigorous precautions were not taken.

Small importance was attached to these menaces at first, but repeated inexplicable accidents to the electric wires, which were laid to illuminate the island, caused the authorities to think there was some foundation for the reports and to resort to extreme precautionary measures. Boats were forbidden to approach the island and the police patrolled the river in launches night and day and the same precautions were taken at Kiel. The consequence was that if there was really any serious intention to commit outrages the plan was frustrated. Nobody, who was not known, succeeded in getting near any of the royalties present nor did they get very close to the scenes of the various ceremonies.

The Russo-French convention, which the Paris newspapers allege has been concluded, is said to agree that if Germany should attack France, Russia would send 300,000 men at once to the German frontier. On the other hand if Austria or Germany should attack Russia, France would intervene in a similar manner. The reports of the conclusion of such an agreement, however, are received in official circles here with incredulity.

The Price of Coke May Go Out.

Connellsville, Par, June 23.—The condition of the iron market warrants an advance in the price of coke, which would have been accomplished at the recent meeting of the operators in New York but for the opposition of W. J. Rainey. All the other producers were willing to put the price up to $1.50 per ton, but Rainey claimed that he had not been treated fairly and was able to sell all the coke he could produce at a profitable figure. This put a damper on the syndicate scheme and nothing further has been done. If the price of coke is advanced now, the H. C. Frick company will have to make the move. And this they are reluctant to do, because as soon as they put furnace coke up to $1.50 per ton the wages of the miners and coke workers will have to be advanced accorningly. The Frick company would have no hesitancy in making such a move were it not that they have no guarantee that the operators would follow their example. There would be no advantage in advancing coal to $1.50 and wages in proportion, and then have the other proprietors cut the rate down twenty or thirty cents.

Sunday Base Ball in Chicago.

Chicago, June 23.—The Sunday Observance league made good its threat today and arrested the members of the Chicago league ball team after the third inning of the game with Cleveland. President Hart told the five constables that he would submit quietly to arrest if the players were allowed to give bonds on the spot. This was agreed to and the justice before whom the warrants were sworn out accepted securities for the players. Each man was held in $100 bonds until July 2, when the case will come up for trial, Warrants were also sworn out for Tebeau and McGann. These were not served, as George Tebeau was not on the grounds and there is no such player with the club as McGann.

Shot and Stabbed to Death.

Montgomery, Ala., June 23.—Emmet Chester, a farmer living five miles from here, accused C. A. Wilson, of this city, with being intimate with his stepdaughter. Yesterday Charles Minze, a friend of Chester, enticed Wilson in swimming and when they were dressing Chester approached with a shotgun, told him this was his last day on earth and shot and killed him. Chester then cut Wilson's throat and stabbed him in several places. Charles Minze was arrested as an accomplice. Chester is at large. Wilson claimed to be a son of G. F. Wilson, of New York, of the banking firm of Wilson, Larabee & Co.

Their Wages Advanced.

Lebanon, Pa., June 24.—The employes of the North Lebanon furnaces have been notified of a ten per cent increase in their wages to go into effect July 1. The East Lebanon Iron company has notified the employes of the puddle and rolling mills that an advance of ten per cent will be made in their wages dating from to-day. In all about six hundred men are affected by the increase in the two works.

MURDERED THE CASHIER.

C. B. Birch, a West Chicago Street Railway Company Employe.

Chicago, June 23.—C. B. Birch, one of the barn cashiers of the West Chicago Street Railway company, was murdered in his office in the car barns, at Milwaukee and Armitage avenues, at 2.30 o'clock this morning. The cash drawer was robbed of from $100 to $200.

Birch was alone in his office when the robber entered. There were men in the barn, but no one was within calling distance. The cashier was in a wire cage, but had left the door open. When the robber demanded the money in the drawer Mr. Birch reached for his revolver and immediately shot. He fell to the floor, but managed to fire one shot, which went wild. The burglar fired three more bullets into his body, and then emptying the cash drawer ran out with its contents and escaped.

The safe in the office contained $5,000 in currency, but this money was not touched. Mr. Birch died at 7 o'clock, and while he was able to give a good description of his murderer, no trace of him has yet been found.

A Powder Mill Explodes.

Shenandoah, Pa., June 23.—The powder mill operated by Roberts, Reese & Hedea containing 1,400 kegs of the explosive blew up last night, demolishing the buildings, shook the valleys for twenty-mile around and caused a loss of $40,000. It is supposed to have been touched off by a firebug. It was located in the Catawissa Valley four mile from here. No lives were lost so far as is known.

The village of Ringtown, two miles from the scene of the disaster, suffered terribly from the shock. The inhabitants were thrown from their beds and some fled from their homes in terror. There is to-day not an unbroken window glass in the town, and many of the houses are so badly wrecked that they have to be abandoned until repairs are made.

In Shenahdoah, which is four miles from the mill, hundreds of people were awakened by the fearful shock. Many ran out upon the streets, thinking some great catastrophe had occurred. The powder mill was new, having been put in operation on May 1. It is completely demolished, as are the outbuildings at the place.

Want Him to Turn State's Evidence.

New York June 23.—L Friedman, 19 years old, a Russian Jew, was held in the Tombs police court to await requisition papers on the charge of conspiracy and robbery. The complainants are Nathan Mopschick, L. Bernstein and H. Goldberg, who owned a hat and cap factory in Rutherford, N. J. They charge Friedman and twenty others with conspiring to rob their factory. Lawyer Hahn told Justice Voorhis that the Cloth, Hat and Cap Makers' union, of this city, to which Friedman belonged, had ordered the blowing up of Bernstein & Goldberg's factory with dynamite. "We have two detectives initiated in the Cloth and Hat Cap and Makers' union," said Lawyer Hahn. "They were present when the union decided on the distardly deed. We have the very minutes of the meeting at which the members so decided." It is said that efforts will be made to have Friedman confess and appear against the others.

After Thieves.

Chicago, June 23.—Three hundred farmers of Dupage county organized themelves into an armed posse to capture a gang of thieves who have been stealing everything moveable on their farms between Elgin and Hinsdale for the past two months. One of the band was run down yesterday after a midnight chase and taken to the Hinesdale jail by thirteen of the farmers. A crowd continued to surround the lockup after the prisoner was in his cell.

The demonstration frightened him in to believing that he was to be lynched. He took a piece of glass from a broken window and cut the artery in his left wrist. When the marshall opened the door he was dead. The farmers recognized the suicide as the leader of of the gang, although he protested he was an innocent peddler. He has not been identified yet. The chase is being kept up for others.

Fitzsimmons on Trial.

Syracuse N. Y. June 24.—The trial of Robert Fitzsimmons upon an indictment for manslaughter in the first degree in killing "Con" Riordan in a sparring match at the grand opera house commenced here to-day. "Bob" came here prepared to fight against conviction for a verdict against him may mean twenty years in prison.

Court adjourned at 6 o'clock. Nine jurors had been provisionally accepted. At the present rate it will take at least three days, possible a week to get a jury.

POLITICS WARMING UP.

Governor Hastings Comes Out Squarely for Colonel Gilkeson.

Philadelphia, June 24.—That Senator Quay has the political fight of his life on his hands is daily becoming more evident. The opposition to him is aligning some of the most powerful influences in the state against him and he will have opposed to him the influence of the state administration and that of the municipal leaders of Philadelphia and Pittsburg.

Gov. Hastings and Mayor Warwick, of Philadelphia, today came squarely out in opposition to Senator Quay. A dispatch from Harrisburg to-night quotes the governor in an interview as being a candidate for a permanent chairmanship of the coming state convention and in favor of the re-election of Mr. Gilkeson as chairman of the state committee in opposition to Senator Quay. Mayor Warwick to-night announced that he was for Hastings, as the governor was both his social and political friend, and that he would favor him for chairman of the state convention.

The coming state convention will nominate a state treasurer and six judges of the superior court, a new court created by the last legislature. The seven candidates nominated by the convention and the permanent chairman of the convention will elect the state chairman, and if Senator Quay is defeated in the convention, the consequent loss of prestige may mean his political death blow. Senator Quay is in Harrisburg to-night but will not talk for publication.

To Protect Their Interests.

Pittsburg, June 23.—Fifteen gentlemen, representing the sentiment of twenty-three independent companies, having a combined capital exceeding $50,000,000, engaged in the manufacture and sale of telephone instruments in the United States, met here this morning. The purpose of the meeting is permanent organization for the protection of their business interests. J. E. Keelyn, president of the Western Telephone Construction company, of Chicago, Ill., the prime mover in the organization idea, presided.

After several addresses, committees were appointed to look over the various plans presented by the delegates. These committees are to report at this afternoon's at which permanent organization under the name, National Independent Telephone company of the United States was effected. The companies represented are operating principally in states south and west of Illinois, in which territory they have already 100,000 instruments installed. They propose supplying small cities first and then the larger business centres, and at rates about half those charged by the original Bell company.

The Court Declined.

Hollidaysburg, Pa., June 24.—The Blair county court this afternoon declined to order the release from custody of County Commissioners John Hurd and James Funk on a writ of habeas corpus. The accused officials were required to furnish bail in three different prosecutions for malfeasance in office, which will be tried this week.

The grand jury reported to court this afternoon that the two commissioners had unlawfully let two important bridge contracts to the Groton Bridge Company of New York at a loss to the county of $1,400 The jury requested that the court interpose its power to prevent such loss.

Clerk Kerr's Mistake.

Washington, D. C., June 24.—Clerk Kerr, of the house, through a technicality failed to secure a lucrative contract from the district government here to-day. It was for the collection and destruction of garbage and the contract was for five years. Mr. Kerr bid $35,000 per year, which was about $7,000 less than his nearest competitor.

A check for $2,000 on the First National bank of Patton, Pa., accompanied the bid, but unfortunately for Mr. Kerr, the check was not certified as required by the terms of the advertisement calling for bids. Consequently Mr. Kerr's bid was declared to be informal and was thrown out.

Columbia Won the Boat Race.

Poughkeepsie, June 24.—The Columbia-Cornell Pennsylvania race was won by Columbia. Rough water was encountered from the middle of the race to the finish. The Columbia and Cornell crews pulled through it all right, but Pennsylvania gradually settled in the water and finally sank. It was agreed that in case any of the crews was sunk by the swell of the boats it would be no race, but as the Pennsylvania crew was clearly beaten and the rough weather caused the accident, the race will stand. Columbia's time was 7.15:17.

WILLIAMSON APPOINTED.

He Will Be the Judge in the New Huntingdon-Mifflin District.

Harrisburg, June 24.—The governor has appointed ex-Senator W. McKnight Williamson, of Huntingdon, president judge of the new Huntingdon-Mifflin district.

Huntingdon, Pa., June 24.—William McKnight Williamson, Esq., who received the telegraphic announcement this evening of his appointment by Governor Hastings as president judge of the new judicial district, composed of Huntingdon and Mifflin counties, is a son of the late Rev. McKnight Williamson, and was born in Juniata county June 29, 1840. He was educated at Milnwood academy, Shade Gap, this county, and read law in the office of his brother-in-law, William H. Wells, Esq., being admitted to practice here January 17, 1865. He immediately entered into partnership with his preceptor and continued in that relation until his appointment to the office of prothonotary by Governor Hartranft on November 22, 1877 to fill the vacancy occasioned by the death of Lewis M. Stewart. He was nominated and elected to the same office in 1878, and again in 1881, but suffered defeat in 1884. Since that time he has served one term as state senator from the Huntingdon-Franklin district. With the exception of the time spent at Harrisburg since 1884 he has been actively engaged in the practice of law.

Mr. Williamson's appointment was expected by those in touch with the political situation. One of his ardent supporters was George B. Orlady, Esq., whose appointment on the superior court bench is not doubted. The latter is generally believed to have been made, although not yet officially announced.

Inspected the New York.

Hamburg, June 24.—Emperor William, wearing the uniform of a German Admiral, yesterday afternoon visited the warship New York, the flagship of the American squadron at Kiel. He was accompanied by Admiral Knorr, Chief of the Baltic (Kiel) Naval Station. As His Majesty boarded the vessel at 1.15 o'clock the crew manned the rails and a salute of twenty-one guns was fired. At the same time the German Imperial standard was broken out at the main masthead. Admiral Kirkland and all the officers of the ship received the Emperor on the quarter deck. All the officers were presented.

His Maesty inspected the ship thoroughly, he was particularly interested in the revolving turrets, gun mechanism, torpedo tubes, and the officers' and men's quarters. He commented favorably upon all he saw and showed technical knowledge. He also showed some familiarity with the design of the New York. After inspection refreshments were served in the cabin.

The Emperor presented to Admiral Kirkland an exquisite gold snuff box studded with diamonds, the gems forming a frame to a portrait in enamel of His Majesty.

The Rosebery Government Will Resign.

London, June 24.—It is officially announced that the Rosebery government will resign. Lord Salisbury will be summoned by the queen to form a ministry and his cabinet will proceed with the routine business of the house obtain provisional supplies and then dissolve parliament.

It is expected that the elections will take place about the 10th of July. The second meeting of the cabinet yesterday afternoon began at 4 o'clock and lasted until 5.45. The meeting was held to decide whether the government should resign or dissolve parliament. It was decided to resign.

After dinner, at Windsor Castle, last night, Lord Rosebery had a long private audience of the queen and communicated to her the decision arrived at by the government.

"That Tired Feeling"

only requires some simple supportive like a glass of milk, a cup of tea or coffee, or a dose of Sarsaparilla to relieve it; but when you have *real disease* lurking in your system, you need Dr. Pierce's Golden Medical Discovery.

For every disease caused by torpid liver or impure blood, Dyspepsia, "Liver Complaint," the most stubborn Skin, Scalp, or Scrofulous affections—even Consumption, or Lung-scrofula, in its earlier stages Dr. Pierce's Golden Medical Discovery is the only remedy so sure and effective that can be *guaranteed*. If it doesn't benefit or cure, you have your money back. Can anything else be "Just as good" for you to buy? 6-27-1t

THE "RECORD'S OPINION.

The Quay-Hastings Contest Promises to be Most Interesting.

Philadelphia, June 25.—The Record tomorrow will say: The contest for the control of the next republican state convention between the adherents of Governor Hastings and United States Senator Quay is attracting the attention of politicians all over the state. The formal declaration of war by the governor seems to have a paralyzing effect upon the republican managers. In many instances they stood mute and were unable to tell just "where they were at." Some time will be required for these men to collect their wits and then the declaration will come as to which king they will serve under.

The Record made a hurried canvass of the state to-day, with a view to ascertaining how the party lines were drawn in the great contest for the control of the republican machinery.

A review of the contest shows that today the battle is a close one, but what it will be one month hence is a matter of conjecture. The convention will meet on August 28 next, so there will be plenty of time for changes.

An important point to be remembered in connection with this matter is that whoever controls the state convention will be able to name the chairman of the state committee.

In this city the friends of Hastings will get about fifty delegates out of seventy. In Allegheny and the counties adjacent the Hastings people claim 70 of the 101 delegates to be elected. Attorney General McCormick will be expected to deliver the Sixteenth congress district; Secretary Reeder, the Eighth; Commissioner Gilkeson and Adjutant General Stewart, the Seventh, and the counties contained therein can be pretty certainly counted for Hastings.

Quay will have a following in Philadelphia, all of Lancaster, Berks, Luzerne, Schuylkill, perhaps, many votes in the northwest, and a slice of western Pennsylvania.

It May Have Been Suicide.

Belvadere, N. J., June 25.—The preliminary hearing in the case of Samuel C. Carpenter, accused of shooting Mrs Blackwell, of Philipsburg, was resumed here this morning. Court Officer Nixon testified to meeting Carpenter near the postoffice, in Philipsburg, at 7 o'clock on the night of the murder. It is supposed the crime was committed before 6 o'clock. Detective Simons, who arrested Carpenter at his home, in Easton, said that the prisoner told him he left the Blackwell house at 6 o'clock.

The defense will endeavor to connect Engle A. Barber, of Philipsburg, with the case. Barber frequently visited the Blackwell house.

The suicide theory is being pushed forward and may play an important part a the trial. A letter found in the room of the dead woman, addressed to her sister, has been ordered produced by the court.

'Squire McMullen's Brave Act.

Atlantic City, N. J., June 23.—While out yachting to-day "'Squire" William McMullen, of Philadelphia, performed a heroic rescue at the peril of his own life. The 'squire with a colored boy, was in a yawl attached to a yacht. Four miles from shore the yacht tacked suddenly, upsetting the yawl and dumping the occupants into the sea. The 'squire is a good swimmer and went to the rescue of the colored boy, who was struggling in the water, and sustained the lad for thirty minutes until the yacht came about and picked them up.

One Colonel Got Three Months.

Philadelphia, June 25.—Judge Biddle in the quarter sessions court to-day sentenced Colonel William R. Runkle, who last week pleaded guilty to assaulting Colonel A. Louden Snowden, to three months' imprisonment in the county prison. Colonel Runkle publicly assaulted Colonel Snowden because of a fancied wrong done him by Colonel Snowden in connecting with his (Runkle's) retirement from the Philadelphia mint a score of years ago. Colonel Snowden sent a letter to the court asking that clemency be extended to his assailant.

Methods of Measurements.

It is said that the Arabs have two methods of estimating what will be the height of horses. By the first a cord is stretched from the nostrils over the ears and down along the neck; this distance is compared with that from the withers to the feet. The colt will grow as much taller as the first distance exceeds the second. By the other method the distance between the knee and the withers is compared with that from the knee to the cornet. If it had reached the proportion of two to one the horse will grow no taller.

WEATHER PREDICTIONS.

Foster Says That the First Half of July Will be Cool and Rainy.

My last bulletin gave forecasts of the storm wave to cross the continent from the 25th to the 29th, and the next will reach the Pacific coast about the 29th, cross the west of Rockies country by the close of the 30th, the great central valleys July 1 to 3 and the eastern states about the 4th.

Average rains may be expected through the central portions of the United States, leaving a deficiency in the extreme north west of Rockies country about June 29, great central valleys July 1 and eastern state July 3. A cool wave will cross the west of Rockies country about the 2d, great central valleys July 4 and eastern states about the 6th.

The cool wave will inaugurate an extended cool period and what is herein designated as the cool half of the month. Each month is usually divided into about two weeks of cool and two weeks of warm weather, and the difference in the average temperature of those two periods is almost universally of a radical type. It is of great importance to know when these warm and cool periods will occur.

Each of these twelve to fifteen days warm periods has two storm waves, two warm waves and two cool waves, and each of the twelve to fifteen days cool period has the same.

Most rains fall during the cool periods, and the evaporation and drought symptoms are experienced during the warm periods.

I challenge the world in making long-range forcasts of the warm and cool periods, and whoever tests the accuracy of these bulletins in forcasting these periods will find the forecast, in that respect, wonderfully correct.

The rain belt for July appears to extend from Denver to Philadelphia, leaving large areas of drought in the direction of Charleston and Key West and from Chicago and Davenport toward the northwest.

General forecasts for July and temperature forecasts for the coming winter will be published in my next bulletin. I believe my calculations for the coming winter to reliable, and they are of a most important character. It will be a remarkable winter as to temperature.

Fourth of July Program.

The Undines have arranged the following as their program of sports for their 4th of July picnic at Hecla Park.

8 a. m. The Undine Fire company and band, and all other bands from this place will parade to the depot.
9. Special to the Park.
10.15. Steamer contest at Park.
11. Band concert.
12 m. Dinner.
1. p. m. Tub race on lake.
1.30. Boat race.
2.00. Band contest.
2.30. Boxing match.
3.00. Barrel race.
3.30. Sack race.
4.00. Wheelbarrow race.
5.30. Supper.

Dancing at all hours, afternoon and evening.

Grand display of fireworks at 8 p. m.

COMMITTEE.

—To our amusement loving people we take pleasure in making the announcement that Pawnee Bill's Historical Wild West, Grand Mexican Hippodrome, Indian Village and Museum and Congress of Trained Animals, will exhibit in this city July 10th.

This is not the greatest show on earth; advertising more than it fulfills; neither is it snide, run by drunken and bankrupt proprietors, and preceded by a lot of cutthroats and a horde of gamblers, but is a legitimate exhibition of stupendous and startling wonders, including bands of Indians, warriors, squaws, and papooses, brave scouts, roving cow boys, cunning Mexicans and vaqueros, a herd of Buffaloes and long horned Texas steers, 40 spotted mustangs; Miss May Lillie, champion horseback rifle shot of the world: Don Jose Valasques, rider and driver of 35 wild mustangs at one time; also a band of Australian Aborigines genuine Cannibal Bushmen, Famous Black Trackers and Boomerange Throwers, a troupe of famous Japanese Lancers Fencers, and Fighters, and sword combats on horseback, a museum of rare and startling wonders; wonderful display of fireworks; grand, glorious, novel free street display at 10 a. m. This is an opportunity which should not be missed. Notwithstanding the consolidation of these great shows a 25-cent ticket admits to all departments of the big show, making it the largest and best show on earth for the price.

A Good appetite and refreshing sleep are essential to health of mind and body, and these are given by Hood's Sarsaparilla. 6-27-1t

NIAGARA FALLS.

$10 Tour via Pennsylvania Railroad

In all the wide range of creation there is nothing which approaches Niagara Falls in magnificence or grandeur, nor any other object which inspires the beholders with such awe-inspiring wonder. One must see the great cataract in order to form any conception of its vastness or secure a proper appreciation of its majesty.

The series of tours arranged by the Pennsylvania Railroad Company, leaving Philadelphia July 18, August 1 and 15, September 7, and October 8, and Washington and Baltimore July 25, August 8 and 22, September 7, and October 8, affords an excellent opportunity to make the trip at a remarkably small expense.

The rate for round-trip tickets, good for ten days, is $10 from Philadelphia, Washington, and Baltimore, and proportionate rates from other points.

A special train of Pullman parlor cars and day coaches will be run on each of the above-named dates, and a tourist agent and chaperon will accompany each tour—in fact, everything will be done to make the trip attractive and pleasurable.

The tickets will also permit of stopoff at Watkins and Rochester in each direction, and at Buffalo on the return trip.

For specific rates and time of trains application should be made to ticket agents or to Tourist Agent, Room 411, Broad Street Station, Philadelphia.

Protection from Infection.

The new law enacting regulations for cars, burial and disinfection in the case of infectious diseases, signed by the Governor yesterday, furnishes restrictions on the spread of infection which have been lurking heretofore. An examination of the provisions shows it to be one of the cases in which the recent session has produced legislation for the welfare of the public.

Some of its enactments appear stringent, but the stringency is of a sort necessary for the public protection against the spread of disease. The fact that there are people willing to take the chances of a public funeral after a death from an infectious disease shows the necessity for radica and thorough prohibitions of everything that can increase the public danger. Those who are willing to take every precaution against the spread of infectious disease will find no hardship in the law. Those who are not willing to do so constitute the class whom it is necessary to restrain by law.

This act contains no provision for the isolation of infectious diseases in hospitals provided for that purpose. This is undoubtedly because the existing law provides it for smallpox, where hospitals for that disease are established, and because hospitals for the care of other infectious diseases are not generally provided. But it might be criticised that to make the law complete it should have required the provision, in cities at least, of hospitals for all infectious diseases, and the isolation of all patients as soon as the type of contagious disease is made plain.

Queerest of Accidents.

The story runs that a man was found lying dead upon a coach, his life having been destroyed by a bullet discharged from a gun lying near. The circumstances of the matter positively proved that the case could not have been one of suicide, and, therefore, the only alternative which could be reasonably suggested was that he had been murdered. An acquaintance was charged with the crime, but absolute proof of guilt was not forthcoming. One of the parties engaged in the case was so far interested in the peculiar facts of the death as to seek a different solution to the affair than that accepted by popular belief. The result of his observation and deduction was very curious. The rays of the sun had streamed in at the window of the apartment in which the man had encountered his end, and had been concentrated direct upon the explosive chamber of the gun, by which means sufficient heat had been engendered to warm the cap and powder, and cause a discharge. The gun having been quite inadvertently placed in a way as to point to the unfortunate man, he received the bullet while he lay placidly sleeping, no doubt meeting with instant death.

The Chinese Indemnity.

No objection will be raised by anyone in this country to supplying the Chinese war indemnity from the silver mines of the United States. The syndicate which now controls more than one-fourth the amount necessary to meet that demand would be relieved of the present embarrassing predicament and the people of the country would be spared any further agitation of the free silver question for some time to come.

The Chinese indemnity is equal to about 200,000,000 silver dollars, or about half the amount bought by the United States Government before the repeal of the Sherman law. If the silver men of this country can get the contract for the supplying that metal it will absorb the surplus product of our mines until it has all been delivered and by that time Europe is likely to look more leniently upon the proposal for international bimetallism.

While it is desirable to have political matters simplified by the Chinese contract it is desirable to get the contract wholly apart from any political view. It will be a fine sale of merchandise for export.

The Republican State Convention.

In fixing so late a date as August 28 for holding the State Convention the Republican State committee has taken a new and very sensible departure. This means that the ticket is not to be nominated until it is time to prepare for the election and that the convention will inaugurate the active work of the campaign. The nomination of State ticket after the summer vacation is over is the rule and not the exception in most other States, and it is a rule that can very properly be adopted and adhered to here.

So far as candidates are concerned, the nominee for State Treasurer is already as good as selected, no one having shied a hat into the ring to contest the candidacy of B. M. Heywood, of Mercer county. But for the passage of the Superior Court bill the work of the convention would have begun and ended with the nomination of Heywood. The new law makes necessary the nomination of six Republican candidates for Judges of the Superior Court, and Governor Hastings will practically make these nominations in his appointments to constitute the court until January next.

With the nomination of Heywood for State Treasurer already conceded and the Judges to be appointed by Governor Hastings practically certain to become the candidates of the convention, the only contest that will stir the blood of the delegates will be for the control of the organization. The permanent chairman of the convention and the candidates chosen by it will select the successor of Chairman Gilkeson, of the State committee, and there is a fair prospect that the contest for control of the party organization through the selection of a State chairman will be a spirited one. Gilkeson is willing to succeed himself, but it is not at all certain that he will be satisfactory to Quay, who will certainly want to control the organization by the selection of some one he can trust.

Hers a Good One.

The Blue Earth City Post, published out in Minnesota, tells a long story about a farmer living near that place that raised a thousand bushels of pop corn last year and stored it in a barn. The barn caught fire recently, the corn began to pop and filled a ten acre field. An old mare in a neighboring pasture with an impediment in her eyesight, saw the corn, thought it was snow and lay down and froze to death. This is the same farmer that told Billy Dewart ten or a dozen years ago that he had such a prolific field of wheat that he had to back his wagon in to get out the first load.

Johnstown Democrat: The boiler of Gast's portable saw mill in Jackson township, near the Indiana county line, exploded Wednesday with terrific force, seriously injuring the engineer, Walter Reynolds, who was thrown about thirty feet by the force of the explosion. The cause of the accident is not known.

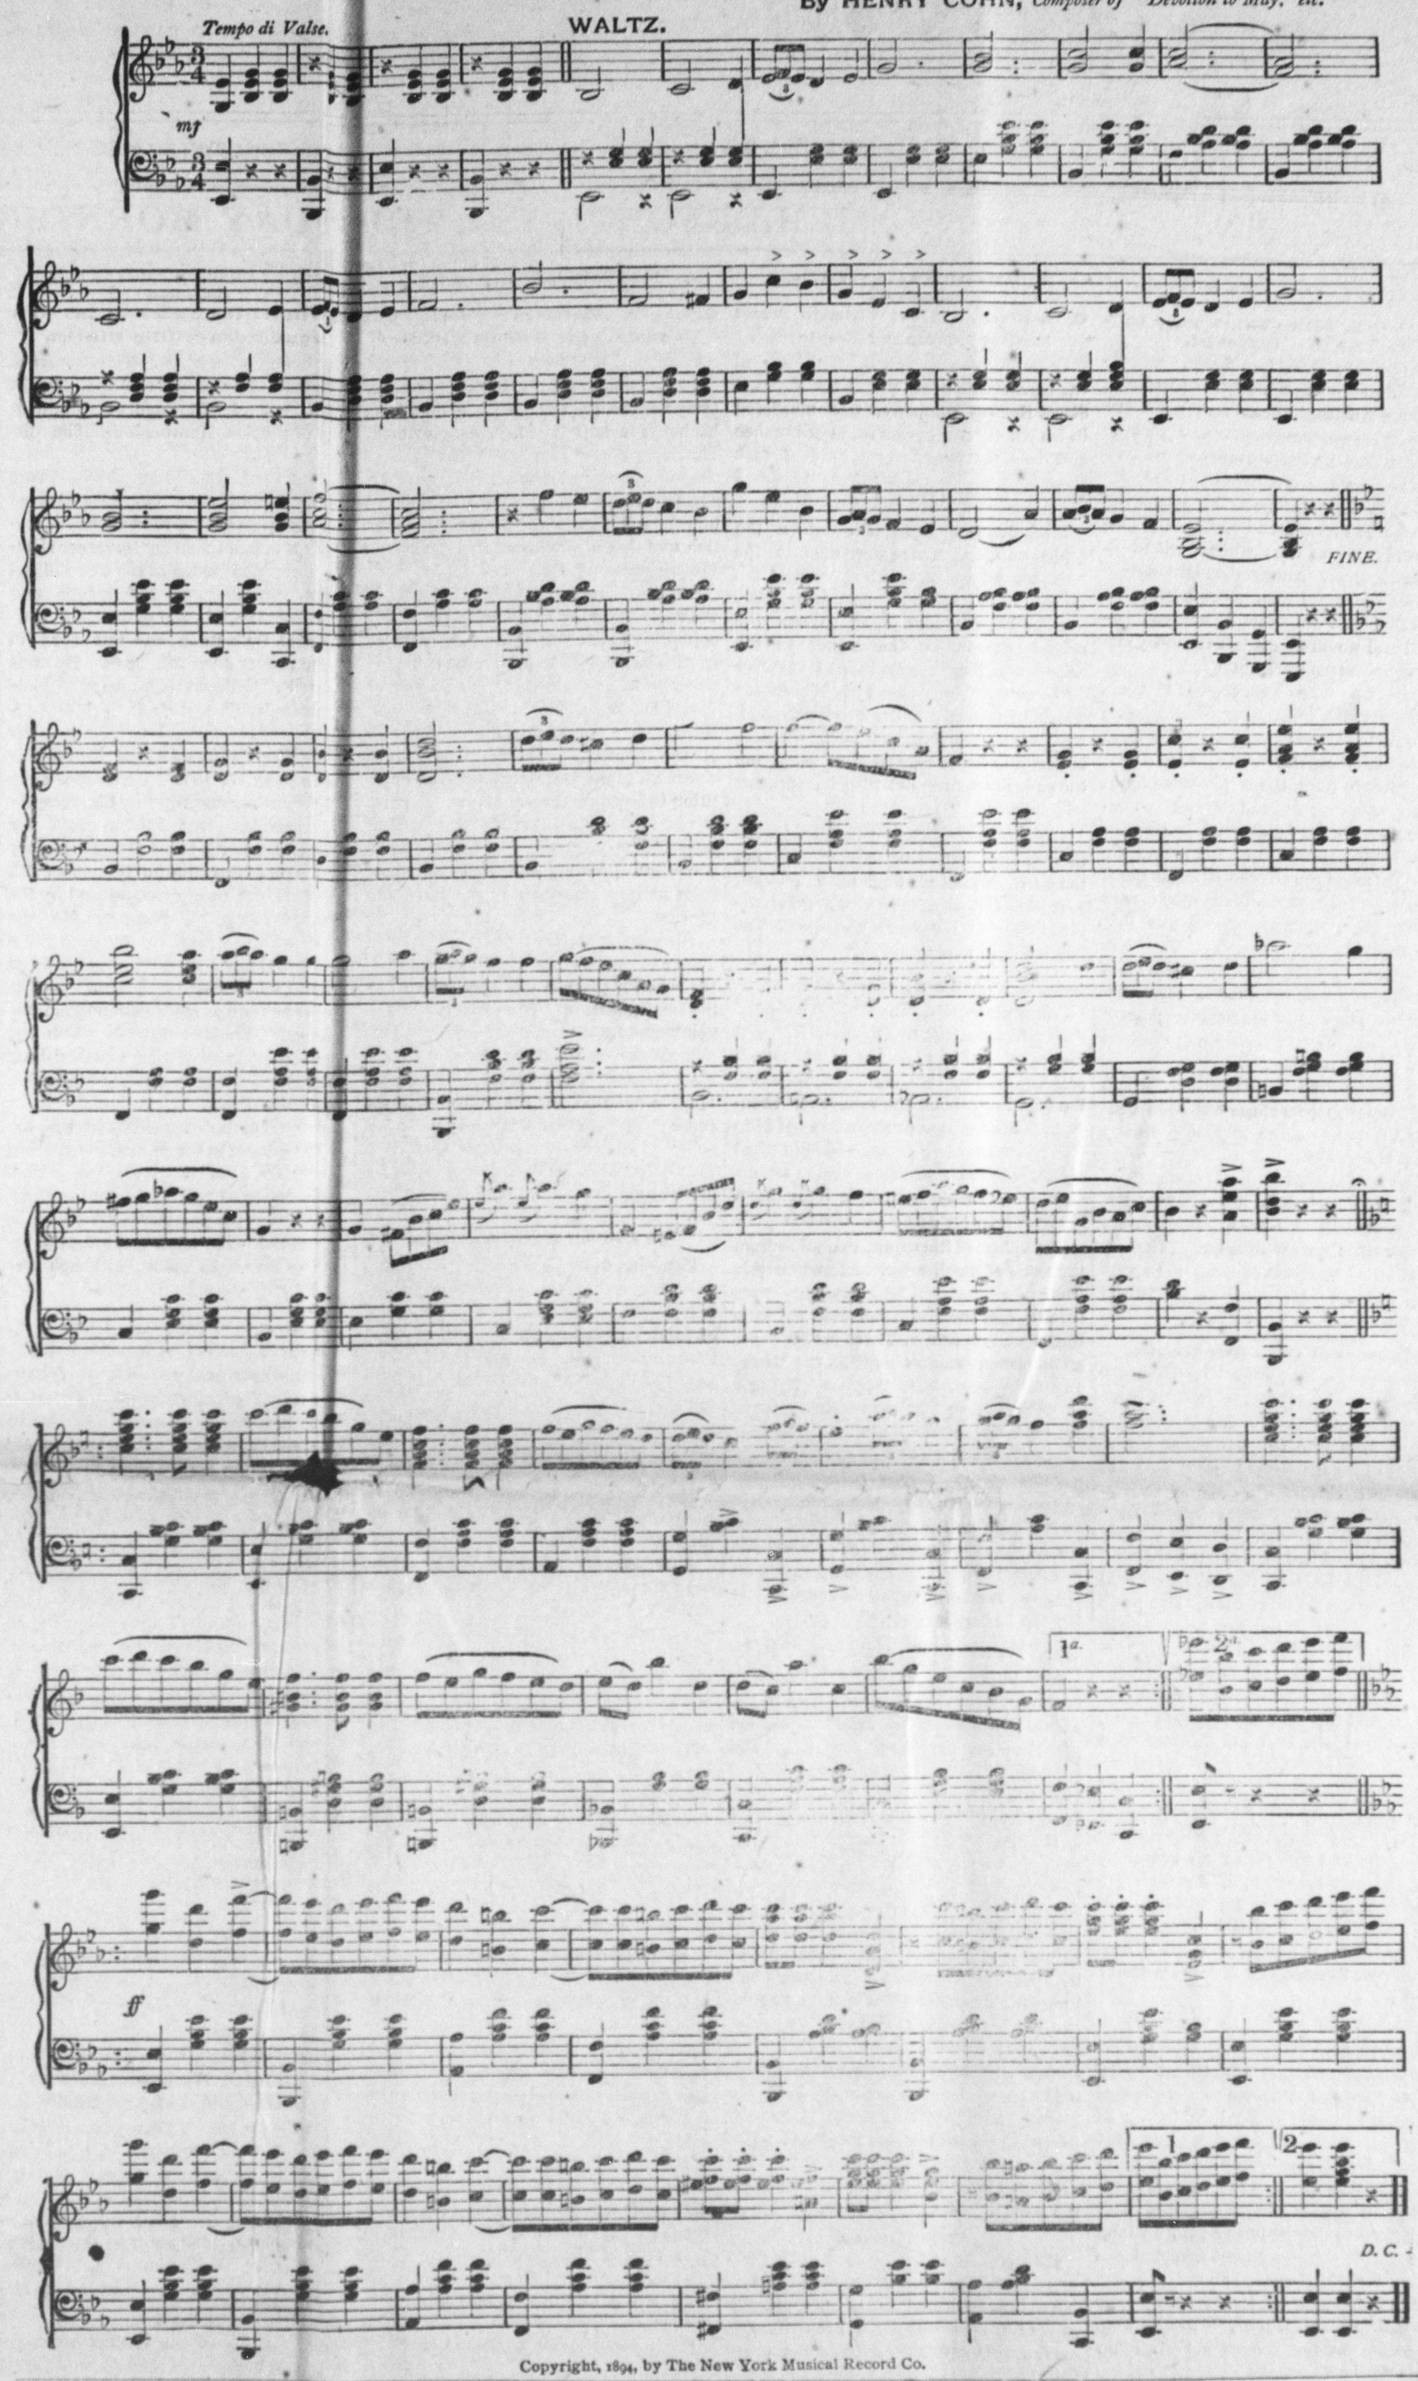
ROSES OF SUMMER.

By HENRY COHN, *Composer of "Devotion to May," etc.*



Copyright, 1894, by The New York Musical Record Co.

Most readers will be surprised to learn, as any one may from an excellent illustrated article in McClure's Magazine for July, how the telegraph has now crept into the remotest crannies of the earth, and is transmitting its hundreds of millions of messages a year at a constantly lessening cost in money and trouble to the public. The same number contains a dramatic chapter from the history of Tammany—the autocratic reign of Tweed, with all its barbaric and illicit splendors, splendors maintained by the theft of untold millions of public money. An article by Sir Robert Ball, Professor of Astronomy in the University of Cambridge, England, shows that recent scientific discoveries tend to support the theory that other planets as well as the earth, maintain life.

Cleveland Moffett supplies, from the Pinkerton archives, a history of the stealing of an express parcel containing $41,000, and of the discovery of the thief and the recovery of most of the money after years of search and pursuit.

These are only a few of the excellent features of this first-class Magazine and it should be in every American home. The Publishers announce with this number a reduction of price to ten cents a copy, or one dollar a year.

An Eight Leafed Clover.

If there is any luck in four leafed clover then Robert Pearson is doubly sure to have the best fortune beam upon him, for while walking across a field, in the vicinity of the reservoir a few days ago, he was attracted by what he thought to be a clover stalk with four leaves. He picked it up to be amazed at finding, instead of four, eight perfectly developed leaves. We saw the specimen and know it to be genuine and if there is anything in the old fable of luck in a four leafed clover then we envy Mr. Pearson the fortune that must surely be in store for him.

Poor Thirsty Baby!

Young babies suffer much more severely from thirst than is generally supposed, particularly in hot weather, when there is frequently a tendency to excessive perspiration. Milk, which will readily appease the little one's hunger, will not allay his thirst, and herein numberless infants suffer, unsuspected, intolerable torture. That water is what is needed will be speedily realized by the anxious mother when she watches how avidly it is swallowed; and even more acceptable to the helpless little sufferer will be a little well cracked ice, tied up in a piece of soft, clean muslin.

William Brubaker, of Stoyestown, Somerset county, who is the patentee of a new mail pouch, has received a letter from the United States postal authorities asking him to have made and forwarded to the department at Washington, two of the largest sized pouches.

HUMPHREYS'

Nothing has ever been produced to equal or compare with **Humphreys' Witch Hazel Oil** as a CURATIVE and HEALING APPLICATION. It has been used 40 years and always affords relief and always gives satisfaction.

It Cures PILES or HEMORRHOIDS, External or Internal, Blind or Bleeding—Itching and Burning; Cracks or Fissures and Fistulas. Relief immediate—cure certain.

It Cures BURNS, Scalds and Ulceration and Contraction from Burns. Relief instant.

It Cures BOILS, Hot Tumors, Ulcers, Old Sores, Itching Eruptions, Scurfy or Scald Head. It is Infallible.

It Cures INFLAMED or CAKED BREASTS and Sore Nipples. It is invaluable.

It Cures SALT RHEUM, Tetters, Scurfy Eruptions, Chapped Hands, Fever Blisters, Sore Lips or Nostrils, Corns and Bunions, Sore and Chafed Feet, Stings of Insects.

Three Sizes, 25c., 50c. and $1.00.

Sold by Druggists, or sent post-paid on receipt of price.
HUMPHREYS' MED. CO., 111 & 113 William St., New York.

WITCH HAZEL OIL

Russell Sage must pay William R. Laidlaw $40,000 for having made the latter a shield to protect him from injury from the explosion of a dynamite bomb in Sage's office in 1891. This is right. The life of the millionaire is worth no more to him than the life of the man whom he thrust in front of him in his endeavor to protect himself. If anything, the award of the jury is too small and Sage should not delay the payment of the money to the man who saved his life to his own injury.

SUPT. D. O. ETTERS' REPORT

As Submitted to the School Board on Tuesday Evening.

To the School Board of Bellefonte, Pa.:

GENTLEMEN:—I beg leave to submit the following report on the standing and condition of the borough schools for the year ending June 1st, 1895.

Reference to the statistical tables shows that the whole number of pupils in attendance upon the public schools of the district during the year was 767; the average daily attendance was 556; and the percentage of attendance 90.

Some of the schools were certainly very much crowded when there was a full attendance. The average number present in the lower grades was much smaller than would have been the case, but for the prevalence of whooping cough and measles, which were epidemic throughout a greater part of the year. Just what effect the new compulsory law will have on the size of some of the schools remains to be seen. One thing is certain, the primary grades will not admit of further crowding, if health and proper instruction are to be considered at all.

In the main, the schools have done much good work. That improvement might be made in certain directions, goes without saying. In one or two instances a hampered surroundings stood in the way of securing the best results.

In the higher grades school interest suffered rather more seriously from outside attraction, during the past year, than has been the case for several years back. Too much gymnastics, too much dancing, too many parties, and the reading of trashy novels will not lead up to the most satisfactory results in school work.

A number of texts have proven very unsatisfactory, some of them on account of the character and arrangement of the subject matter, others because of inferior mechanism. To avoid immediate cost, as much as possible, it is suggested that as rapidly as such books wear out, they be displaced by others better suited to the demands. Where the number of books on hand is small and the exchange price fair, a more prompt displacement might be made. A few such changes can be made to good advantage this year; and the Superintendent will be prepared to recommend more fully on this point at the next meeting of the Board.

Inasmuch as many of our young people, upon leaving the High School, go into the work of teaching, some effort should be made to afford some special preparation for this class of students. It is only fair that we keep in mind the young woman who is to become a teacher as well as the young man who is to go to College or into business.

Since to look after the health of those entrusted to our care is a grave responsibility, it is suggested that if it be at all possible, some effort be made to properly ventilate the Stone school building. There is no doubt that a lack of pure air has been the cause of much suffering by the children in attendance at this building.

It is also suggested that the Superintendent be authorized to formulate a new set of rules and regulations for the schools, to be substituted for revision and approval at the August meeting.

It is urged that the Board take further action to relieve the teachers from the annoyance arising from a misunderstanding, on the part of patrons, of the free book question. In a number of instances, while following the instructions of the Board in protecting the property of the borough, teachers were grossly insulted by those who would impose upon the district.

Respectfully submitted,

DAVID O. ETTERS.

The Water Assessment.

In making out the water tax duplicate the board of assessor should give some attention, as well as some weight, to the amount of water used in sprinkling. Heretofore a hose privilege has been rated the same all over town, without regard to what it implied. In many cases it means the use of but a comparative amount of water, as the person assessed has only a small lawn and a small garden. While in very many cases it means the use of an unlimited quantity of water, where large gardens, large lawns and a block of street is sprinkled once and twice a day. Surely, the man who uses so much water should pay more for the privilege than the man who cannot possibly use half the quantity.

A Father's Painful Discovery.

A gentleman in Milesburg seven weeks ago sent his daughter to live with a neighbor farmer. Thinking that she had gone to the place as directed he paid no further attention to it. A few days ago he was very much surprised that the girl had never made her appearance at the neighbor's. The father then began a search and found the young woman in a disreputable house in Tyrone, to which place she had been enticed.

Will Make Improvements.

J. H. Sands will make some improvements to his small business block on High street occupied by Dr. Dobbins and Richard Bros., jewelers. The store rooms will be let down even with the street and handsome large show windows will ornament the front. Both the exterior and the interior will be remodeled and painted according to the most improved style. It will be one of the most desirable places in Bellefonte.

LIST OF BIRTHS AND DEATHS.

The Returns Made by Registration Assessors During the Past Year.

The following is a statement of the births and deaths in Centre county during the past year. This is compiled by the registration assessors in the respective districts, and the same is filed in the Register's office. The assessors make a return every six months, in December and May. The list of births and deaths during the past six months is not as large as during the period from May 1894 to December 1894.

For the Williamsport Exhibit.

The Williamsport *News* say: The people of Centre and Clinton counties are showing great interest in our centennial. Lock Haven will be well represented, while the people along the Beech Creek and the historic Bald Eagle creek will contribute many rare and valuable relics. S. H. Kunes, of Eagleville, has forwarded two flax heckles brought from Juniata county in 1788 by the Mardens, who were the first settlers in Bald Eagle valley; also an old bear hunter's outfit consisting of bullet pouch, powder horn, pistol and rifle. Mrs. Kunes has many beautiful, ancient, quaint looking silk dresses, handkerchiefs and other articles of wearing apparel used long ago; also a fine collection of china and pretty blue dishes of great antiquity. These will be displayed at the exhibition.

'Squire John Ligget, of Beech Creek, has a mastodon tooth that was found years ago when the Lock Haven and Bellefonte canal was building; also a beautiful cactus cane from Arizona.

Died at Bellwood.

Just on the stroke of midnight Sunday J. T. Weaver passed peacefully and consciously away. He had been very ill for several months with nervous prostration, during which time he manifested great patience and fortitude.

He was born at Pine Grove Mills, Centre county, July 28, 1872, and his short life lasted 22 years, 10 months, and 16 days. With his parents he came to Bellwood about eight years ago. He was the only son of Mr. and Mrs. David M. Weaver, who survive him. He was employed as stenographer in the office of Superintendent Ford, of the Pennsylvania and Northwestern railroad

The funeral took place from his late residence at four p. m. Wednesday. A number of his young friends and former associates acted as pall bearers. The services were conducted by his pastor. Rev. J. H. Mathers, D. D.

The deceased's mother was a daughter of Thomas Wolf, dec'd of Miles township, and both his father and mother are well-known in Brush Valley and in Ferguson township.

A Knotty Problem.

There is a curious lawsuit on tap in a New York city court. James Armstrong owns a big St. Bernard dog, and as Samuel Wilkinson was passing the Armstrong premises the big dog reared up on the fence and took a bite out of Mr. Wilkinson. Mr. Wilkinson brought suit for damages and Mr. Armstrong claims that he is not liable as his dog was on his own ground. On the other hand, Mr. Wilkinson claims that the part of the dog that bit him was out on the public street, and the fact that the dog's hind legs and tail were inside of the fence doesn't cut any ice in this case. Mr. Armstrong's lawyer says Wilkinson has no grounds for a suit, and Mr. Wilkinson's lawyer says he'll show Mr. Armstrong's lawyer a thing or two.

White—Steele.

Mr. Emanuel E. White, son of Mr. and Mrs. Emanuel White, and Miss Minnie, daughter of Mr. and Mrs. Perry Steele, Jr., both of Axe Mann, were married at 6.30 o'clock Tuesday evening at the Methodist parsonage, Pleasant Gap, by Rev. J. C. Young. After the wedding a reception was given at the home of the bride's parents, which was followed by a good callithumpian serenade. On Wednesday evening the couple were again treated to a serenade at the home of Mr. White.

BOLD MIDNIGHT ROBBERY.

The Postoffice and Store at Roland Burglarized Tuesday Night.

About midnight Tuesday night the general merchandise store of J. M. Parker and the postoffice, at Roland, Pa., were robbed by two very genteel looking men who had been seen prowling around that neighborhood two days previous. The robbers secured the tools for breaking into the store from Dukeman's blacksmith shop and Curtin's tool house. Parker had locked up in the evening and gone home leaving his clerk, William Wantz, who sleeps in the store in his room. About midnight Mr. Wantz awoke and thought he heard some one either in the store or on the out side trying to get in. He was about to get out of bed to see what was going on when a masked individual entered the room and covered him with a revolver and told him to lay down and remain silent or he would blow his brains out. Then the stranger searched Mr. Wantz's clothes and found $2.35, all the money he had. For over three quarters of an hour the midnight villain held the revolver over Wantz's head and dared him to move, under the penalty of death. Down stairs was his butty ransacking everything before him, with doors and windows wide open so that in case he was detected he could make good his escape. They succeeded in getting from the store apartment a number of handkerchiefs, stockings, candy and a number of other articles. The postoffice apartment is near the center of the store and the burglars succeeded in securing $38.75 in one and two-cent stamps and about eight dollars in pennies, which were in a box. Mr. Parker had about thirty-four dollars hidden in a barrel of beans, just back of where the stamps were taken, and, of course, the knights of darkness failed in pocketing that amount of good, elegant cash, although Mr. Parker is out about sixty dollars. They also opened nine letters, but found no money.

The burglars were in the store about one hour, and finally the one down stairs whistled and they both departed, leaving Mr. Wantz alone. After the burglar had gone down stairs into the store room Mr. Wantz got up and ran down the back stairs and went out the back door for the purpose of giving the alarm to Mr. Parker who lived only a short distance from the store. The only thing Wantz had on was a shirt, and when he reached the bridge he was intercepted by the strangers, and at the point of two revolvers, he was taken back to the store and marched up the front stairs to his room. They then gave him to understand that if he did that again he would do it at the risk of his life. They then left the second time and it is believed that they struck for the Allegheny mountains. Afterwards Wantz went and informed Parker as to what had happened.

Married at State College.

At 7 o'clock Thursday morning at State College, the home of the bride, Arthur O. Goheen of Tyrone and Miss Mary E. Gray were married by the Rev. Asbury W. Guyer. The wedding was a very quiet one, none but immediate friends of the contracting parties being present. Miss Anna Gray, sister of the bride, was bridesmaid, and Harry Goheen, brother of the groom, was groomsman. The wedding march was performed by Miss Kephart, of Fillmore.

The bride is the daughter of Mrs. Harriet Gray. The late George Gray was her father. She was one of Centre county's fairest daughters. The groom has for a number of years been in the store of his brothers, J. C. and J. M. Goheen, in the seventh ward, Tyrone, and is a sturdy, worthy young man of energy and industry.

After the ceremony was performed this morning Mr. and Mrs. Goheen left State College for Niagara Falls and other points of interest. The NEWS extends congratulations and wishes them a long life of unalloyed happiness.

Decision on Notaries Public.

Deputy Attorney General Elkin has decided that the offices of notary public and chief burgess are not incompatible and that the governor may appoint as many notaries in a community as in his judgment the interests of the public demand. The decision is based on the inquiry of Miss Lillian DeMott, of DuBois, who wanted to know of Governor Hastings whether the chief burgess of that town could also serve as a notary public, and whether two notaries could be appointed for the same ward.

Bank Robbed of Some $30,000.

Duluth, Minn., June 21.—A messenger came in from Rainy Lake City to-night and reported the robbery of the bank at Rainy Lake on the Canadian border by two masked men, who, after holding up and knocking senseless the cashier and binding the teller, robbed the bank of some $30,000 and made their escape. A posse was formed and is now in pursuit and the men they are after will doubtless be shot on sight if caught.

New Filling for Thermometers.

Tulnol, another coal tar derivative, is now being extensively used in place of quicksilver for filling thermometors. This substance, it is stated, while it contains a slight percentage of water, can stand a much lower temperature without freezing than mercury can. Another advantage it has over the latter is that it expands with great uniformity and regularity when exposed to warmth. In color tulnol is a dark blue.

THAT CHRISTIAN RALLY.

Five Thousand People at Hecla Park on Thursday.

If the weather maker had been given an order he could not have furnished nicer weather for the big Christian rally at Hecla Park than that of Thursday; and the crowd was in correct keeping with the weather, about five thousand people being present, including members of Christian Endeavor Societies, Epworth Leagues and Young Men's Christian Associations from the three counties of Lycoming, Clinton and Centre, all gathered together under the auspices of the Bellefonte Y. M. C. A. Only one thing there was that for a little while marred the interest of the occasion and that was the absence of Hon. John Wanamaker and Gen. James A. Beaver, but as their absence was occasioned by circumstances over which they had no control, the fact was soon lost sight of in the very interesting exercises of the day and listening to the instructive addresses of the very able speakers who were present.

There were three meetings held during the day, one in the forenoon, in the afternoon and evening. At the forenoon meeting Judge H. M. Hinckley, of Danville addressed the assemblage on "Sabbath school work. In the afternoon Rev. Richard H. Gilbert, of Tyrone, spoke on the work of the Epworth League, and Rev. Harvey Graeme Furby, of Tyrone, on that of the Christian Endeavor Society. In the evening Senator S. R. Peale made a very brilliant and superior address on Y. M. C. A., work and was followed by State Secretary Bard, of Pittsburg in a brief but eloquent speech.

Rev. J. W. Rue, of Bellefonte, and Rev. J. B. Soule, of Milesburg, were present and assisted in the services of the day with prayer and short talks.

A charming feature of the rally was the solo singing of Mr. Low and the chorus singing at all the meetings. The chorus, which was exceedingly large, was under the direction of Mr. and Mrs. J. J. Low, who are members of the Bethany (Wanamaker's) Sunday school, in Philadelphia. There was orchestral accompaniment to the singing which was under the leadership of Mr. Lyman T. Eddy, of Milesburg. The exercises all through were as interesting as it was possible for them to be and no one regretted going, while it is believed the rally will result in great good to all organizations, as well as individuals, present.

The Park was in a perfect condition and the seating capacity was ample even for the large crowd present. The lake was covered with gay boating parties all day long and the best of good humor prevailed. There was plenty to eat and everybody was happy, so that all in all there is not one who can but say "it was good to be there." The Bellefonte Association will realize between two and three hundred dollars out of the day.

To Oklahama for Diverces.

Oklahama is fast winning a reputation as a point where the untying of the matrimonial knot can be done with neatness and dispatch. Married people who have not found all to be plain sailing in the double life go to Oklahama and after a residence of ninety days secured an absolute divorce without any one knowing it except the court and the aggrieved ones. The business is so managed that if there is difficulty in a family the first one to get to Oklahama gets the divorce.

Typhoid Fever Epidemic.

An epidemic of typhoid fever is prevailing at Coleville. There have been two deaths already, one a Mr. McMurtrie, who died some time ago, and the other a young man by the name of Poorman, who died Thursday night. There are some ten or a dozen cases of the fever there now. It is said to come from using water from a spring into which some refuse of the village drains, and the water is believed to be impregnated with fever germs.

WASHINGTON LETTER.

Washington, June 24, 1895.

From our Regular Correspondent.)

Secretary Carlisle's success in routing the silver democrats of Kentucky has given him the big head, and if the democrats carry that state this fall—a gigantic if, by the way—he will be certain to take the presidential fever in its most violent form. In his fight for Blackburn's seat in the Senate Mr. Carlisle has the earnest support of the administration, for it is largely Mr. Cleveland's own fight, but when it comes to a presidential nomination that is another matter entirely. It is unquestionably Mr. Cleveland's present intention to take the nomination himself, if he can get it. However, as Mr. Carlisle is this week going on his vacation, which will be spent in the neighborhood of Buzzard's Bay, perhaps he and Mr. Cleveland can come to an understanding, if any understanding is necessary. Kentucky republicans say they are going to carry the state, and if they do Mr. Carlisle's presidential aspirations will be deader than those of Sibley.

There is a democratic plot hatching in Washington which bodes no good to Mr. Cleveland's ambition. The national association of democratic clubs is organizing a party of stump speakers to make a tour through the west and northwest. The secretary of the association who will be in charge of the tour, is not over friendly to Mr. Cleveland, owing to his having failed to get one of the big federal offices in the District of Columbia; and Senator Morgan, who is to be the star orator of the party, is an outspoken enemy of Mr. Cleveland's financial and foreign policy. It may be presumed, therefore, that this party will in a quiet way do what it can to increase Mr. Cleveland's unpopularity with the democrats of the west and northwest. Taken altogether Mr. Cleveland will have no easy task to obtain that nomination; and no possible chance of being elected should he succeed in getting it.

Small democratic officials who have been notified that their dismissal from office would speedily follow any declaration or work on their part in favor of the free coinage of silver, are much interested in the case of Mr. William R. Morrison, who draws $7,500 a year and perqs., for performing the comparatively light and pleasant duties of a member of the Interstate Commerce Commission. Mr. Morrison has for some years enjoyed the credit of carrying the greater part of the Illinois democracy around in his vest pocket, and has had the desire to be nominated by the democrats in his heart. Some two months or more ago Mr. Morrison had a conference with Mr. Cleveland, and immediately afterwards it was semi-officially announced that Mr. Morrison had gone to Illinois to aid the administration democrats in their fight against the silver democrats. But Mr. Morrison didn't do anything of the kind; he stabbed the administration in the back, so to speak, while supposedly acting as one of its accredited agents. And that isn't all he has done. One of his henchmen—ex-Congressman Forman—is now in Washington, booming Morrison as the free silver candidate for the democratic nomination. That Forman is acting with Morrison's knowledge and consent is generally believed, and the small officials want to know what Mr. Cleveland is going to do about this open defiance of the administration edict by a big official. The silver democrats are chuckling over the affair; they say the administration will not dare try to discipline Mr. Morrison, while the anti-silver democrats say he must be disciplined, if the administration expects to prevent the control of the National Convention by the silver democrats.

The democratic party in Missourri must be in a bad way if reports which reach Washington can be depended upon. Mr. Richard Gentry, a Kansas City railway builder, now in Washington, says: "As far as the political situation in Missourri is concerned, I am of the opinion that the state will be carried by the republicans next year, although I belong to the democratic party. One of the chief reasons for thinking the republicans will win is that a large number of democrats are sick and disgusted with their leaders; are tired of the men who have dominated the party for years to its detriment and to show their disgust will give aid to the opposition."

Representative Hitt, of Illinois, has apparently won his long and at times doubtful fight for life, and it now appears to be only a question of time before he regains the robust health he so long enjoyed. He has been ill for many weeks, but has grown strong enough to travel and has gone to the Rhode Island coast to spend the summer. Mr. Hitt, if he regains his health will almost certainly be the next chairman of the House Committee on Foreign affairs, a position he has held before and which his experience in the Department of State and in the Diplomatic service has thoroughly equipped him for, and a position which may become prominent during the fifty-fourth Congress.

Gen. Reeder's Credentials.

As has already been stated Mr. Wilbur F. Reeder departed this morning for New York from where he will sail on Saturday for Europe. Yesterday he received a letter of recommendation from Governor Hastings which will be his credentials on the continent. It is a large parchment, decorated with red, white and blue ribbons, and bearing the following letter neatly executed with the pen:

In the name and by authority of the Commonwealth of Pennsylvania, Executive Department.

To all to whom these presents shall come, Greeting: It having come to my knowledge that Col. Wilbur F. Reeder, of the Borough of Bellefonte, a distinguished citizen, lawyer and Assistant Adjutant General of the National Guard of Pennsylvania, intends traveling in Europe for pleasure and information, I commend him to the special confidence and courteous attention of all authorities, officials and others whom he may meet, especially the representatives of the United States Government, as a person of high standing and character and fully entitled to and worthy of the greatest respect and regard.

DANIEL H. HASTINGS.

To this is attached the certificate of Secretary Reeder and the great seal of the State.

During General Reeder's absence in Europe his law office will be kept open and the business conducted by the junior member of the firm, H. C. Quigley, Esq., and Miss Butts as stenographer.

Need Clear Heads.

Working people need clear heads, sound sleep and good digestion; for if sickness comes, what then? It is cheaper to keep well. That "queer feeling" springs from indigestion. First you "pooh pooh!" Then you grow alarmed and send for the doctor. No need of that. A box of Ripans Tabules will set you right and will keep you right; so you can eat, sleep and work. Ask the druggist for them. 6-27-1t

Unionville Items.

We are all too busy to write but will drop a few lines to let the people know that our town still lives and its citizens are hustling about, some for the Almighty dollar and some for their bread and butter.

The participants in the late wedding Young Dr. Vanvalin and bride made a brief visit among their friends in Lock Haven and Clearfield, and are now settling down to the realities of their new state.

Miss Annie Cleaver of the Watchman office made a pleasant visit among friends here a few days ago.

Ed. the son of Dr. Russell, is home on a vacation from the "George school" near Philadelphia.

Some of T. E. Griests relatives from New Castle, Pa. are here on a visit.

Some of our young sports have gone to Benners run a fishing and from the elaborate preparations for the outing the trip should prove a grand success, time will tell.

Our board of health should exert their authority and not allow dead carcasses to to be deposited within the borough limits not twenty perches from some of the houses.

An improvement as well as a precaution against disease has been acted upon by council laying terracotta pipe down two of the alleys extending from the pike to the railroad which will carry away the surplus water which oozes out of the hill and prevent the accumulation of waste matter in the ditches.

G. Hall of this place one of the recent graduates at State College might have a practical application of his acquired knowledge in chemistry, by analyzing some of the drinks brought to this town.

The farmers have been making some hay and are about beginning to cut grain. A few recent showers will greatly invigorate the summer crops.

Relief In Six Hours.

Distressing Kidney and Bladder disease relieved in six hours by the "New Great South American Kidney Cure." This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by F. Potts Green, Druggist, Bellefonte, Pa. 6-20-1y.

Sixty-four quarts on Monday, seventy on Tuesday and ninety on Wednesday of last week is the record of oxhart cherries sold in Newport by a man named Henderson, who resides on the east side of the Juniata. He says they all came off two trees, which will yield two bushels more.

WEEKLY FINANCIAL REVIEW

From our Regular Correspondent.

NEW YORK, June 22, 1895.

The week has been a period of continued expectancy on the Stock Exchange. No loss of confidence in the ultimate additional improvement of the market could be observed; but large operators have wisely waited to ascertain the permanency of the May rise. Simple prudence dictated a policy of this sort, in order to determine how far the expectations which that rise anticipated had been fulfilled. Another cause of diminished activity was the return of Mr. Morgan from Europe, upon whose action several very important reorganization schemes depend. Naturally the absence of information regarding his policy in these matters restricted speculation.

Aside from these influences the stock market presents an exceedingly strong front. Early expectations have been amply justified, and our industries are stepping forward in a manner that shows the movement has merely started and not culminated. Six weeks ago only the bold few were venturesome enough to predict that the turning point had been reached; now everybody is convinced of the fact, and the professional croaker is quieted. The chief obstacle to a further advance has been the cessation of London buying, which is attributable to natural causes. First, the immense sum of over 100 millions of securities, which the syndicate and its followers placed abroad, temporarily satisfied those markets; and, in spite of the ready demand for good investments on the other side, bankers are likely to be more sparing of their takings until present holdings have been disposed of. Speculators in London are chiefly occupied with the Kaffir bubble, which, should it burst, would cause a fresh outburst of British indignation about the wicked promoter; and, until this diversion has lost its force, London operators are quite likely to limit their dealings in American. Another obstacle to foreign buying is the stubborn prejudice of the financial press on the other side, which has a powerful influence among the mass of investors. Those journals are wofully behind in their appreciation of the changed condition of affairs here. Their positions are based upon the scandals formerly attached to American railroad management. They are almost stupidly ignorant of the fact that these matters now belong to the past, and that we are to have a reform in railroad management. Our own great capitalists and bankers appreciate this fact; for, coupled with business revival, it means a restoration of credit as well as earning power; it means that ere long American railroad securities will rank among the best in the opinion of foreign investors, and that values must adjust accordingly. London bankers show by their actions that they understand the new conditions, and the English and German financial writers cannot afford to much longer mislead their readers.

Crop reports are more favorable than a few weeks ago. There is every prospect of a bountiful corn crop, which is of chief importance to the railroads. The injury to wheat is likely to be compensated for by better prices. General trade continues to improve, and there is every prospect of a brisk fall trade when the time arrives for its commencement. The iron trade, one of the best commercial barometers, is in excellent condition; values rising and orders increasing; in fact, before long buyers will be compelled to rush in their orders if they wish to anticipate higher prices. The great staples of trade are generally quiet but steady. In the interior stocks of merchandise are much reduced. In the East wages are rising and industries daily becoming more active. At the same time money is plentiful and easy; while credits are sound. Importers are preparing for large arrivals, but the present lightness of exports causes little fear of gold shipments, as grain and cotton bills will soon be available and Europe is likely to be a liberal purchaser of our investments. Under such circumstances the tendency of the stock market should continue to move in an upward direction; a point has been reached, however, when temporary reactions will be of frequent occurrence; quick turns are therefore in order.

HENRY CLEWS.

The Keystone of the Arch.

In the edifice of health is vigor, which means not merely muscular energy, but an active discharge of the various functions of the body, such as digestion, secretion of the bile, the action of the bowels, the circulation of the blood. Nothing more actively and thoroughly contributes to the united performance of these functions than the renowned tonic and regulator, Hostetter's Stomach Bitters. The result of its use is a speedy gain in strength, together with the agreeable consciousness that the tenure of life is being strengthened—that one is laying up a store of vitality against the unavoidable draughts which old age makes upon the system. The vitifying influence of the Bitters constitute it a reliable safeguard against malaria, rheumatism and kidney trouble. Appetite and sleep improve through its use, and it protects the system from the effects of cold and damp. 6-27-1

Levi B. Hornberger, the burgess of Morrellville, dropped dead at his home at 59 A street, Morrellville, Sunday night at 9.30 o'clock. Up to the time of his death he had been in apparent good health. Heart failure was the cause.

Announcements.

PROTHONOTARY.

We are authorized to announce the name of C. F. Deininger, of Centre Hall, as a candidate for Prothonotary, subject to the decision of the republican county convention

We are authorized to announce the name of Abram V. Miller, of College township, as a candidate for the nomination for prothonotary, subject to the decision of the Republican county convention.

We are authorized to announce as a candidate for Prothonotary, Grant Hoover of Union township, subject to the decision of the republican county convention.

Commissioners office, Bellefonte, May 21, 1895. 5-23-4t

Grateful Women Write Us Letters.

From every corner of the country come thankful letters written by those who have been lifted into cheerful, vigorous, healthy strength by Dr. Pierce's Favorite Prescription.

Thousands on thousands of women have been relieved of the nerve-nagging drag of weakness and pain.

They have been made better wives and better mothers by having perfect health restored, and without the humiliating exposure of examinations so generally insisted on by physicians.

The stereotyped treatment by "local applications" is seldom necessary, and there is no reason why modest, sensitive women need submit to them.

Dr. Pierce's Favorite Prescription is of purely vegetable composition and is perfectly harmless in any condition of the system. It exerts a wonderful soothing, healing and strengthening power over woman's delicate organism. It is an invigorating tonic for the whole system, and is almost an infallible specific for the peculiar weaknesses, irregularities and painful derangements of woman.

To these causes may be traced the trouble of tired, nervous, irritable, worn-out women. Careless, easy-going doctors frequently treat their women patients for biliousness, nervousness, dyspepsia, liver or kidney troubles, when the real sickness is in the organs distinctly feminine, and no help can come till they are made perfectly strong and healthy in both structure and function which is brought about in due time, by the use of Dr. Pierce's Favorite Prescription.

Prescribed for 30 years by Dr. Pierce.

WORK WANTED

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

A Lesson in Peace.

The new German canal has been opened auspiciously. The demonstration with which the Emperor was welcomed after passing through the waterway at the head of the imposing international pageant was one befitting the importance of the work completed.

In the midst of all the festivities, pomp and display of the governments of the civilized world the United States received a large share of favorable consideration. Its vessels of the white squadron were in strong contrast with the sombre hulls of the naval powers of Europe and naturally attracted more attention on that account. Their color is the emblem of peace and in that much is significant of their mission upon the high seas. They could be transformed into terrible monsters of war, but were only designed to preserve peace.

Possibly Emperor William caught his inspiration from the white squadron and the great nation it represented at his Kiel celebration when he said the show of armed power gathered there was a token of lasting peace. In any event it may be hoped the "war load" of Germany and his fellow monarchs may be impressed more with the sweet pleasures of peace by the visit of that portion of the white squadron and by the greetings and fraternalizing of the navies of the world. The great canal that has been opened is a splendid adjunct to peaceful commerce. It puts Germany in a position to win great triumphs in trade. And all the nations represented there might learn a great lesson, namely, that the cost of maintaining armies and navies if devoted to transportation would bring comfort and happiness to their people in solving the great problem of distribution, the link between production and consumption.

ENGLISH Spavin Liniment removes all Hard, Soft or Calloused Lumps and Blemishes from horses, Blood Spavins, Curbs, Splints, Sweeney, Ring-Bone, Stifles, Sprains, all Swollen Throats, Coughs, etc. Save $50 by use of one bottle. Warranted the most wonderful Blemish Cure ever known. Sold by F. Potts Green, Druggist, Bellefonte, Pa. 6-20-1y

Comparing the Canals.

What Germany has just accomplished in the Baltic canal is a gigantic undertaking compared with the Lake Erie and Ohio river ship canal. The trade to be served by the new German waterway is insignificant compared to that of Pittsburg awaiting the completion of the canal to Lake Erie. The energy with which Germany has pushed its difficult project to completion while we dally with our own is in contrast with the commonly accepted ideas of phlegmatic Teutons and nervous, hustling Americans.

The comparison of the German work with that between Pittsburg and the lake shore made by Colonel Roberts is interesting and ought to incite local pride to the effort necessary to create the greatest of canals. Since Germany began the work of canal building in earnest it has passed England in the production of iron and steel. Our own ship canal should enable us to surpass Germany in a few years.

THE *Review of Reviews* for June has an article of an interesting phase of student life in the smaller Western colleges—the oratorical contests. The portrait of the successful competitor in the recent intercollegiate contest at Galesburg, Ill., is given, with extracts from his oration and from that of the speaker who won second place. The former represented Knox College, Ill., and the latter Beloit College, Wis. These contests have been held for twenty-two successive years.

REDUCED RATES TO THE SEASHORE.

$10 for the Round Trip via Pennsylvania Railroad.

Every one, old and young, needs rest and recreation at some time during the heated Summer term, and where can it be obtained better than at the seashore?

No other place can compare with Southern New Jersey in seaside resorts, either in point of number or of excellence. Atlantic City is the most popular resort in America, and Cape May, Sea Isle City, and Ocean City do not fall far short of Atlantic City's high standard.

The Pennsylvania Railroad Company, whose object always is to give its patrons the cheapest rates compatible with good service, has arranged for the series of excursions to the seashore, similar to those which were so popular last season. The excursion will leave Pittsburg July 18, and August 1, 15, and 20, and the rates will be as follows: Pittsburg, Uniontown, Connellsville, Scottdale, Greensburg, Butler, and Latrobe, $10; Johnstown, $9.25; Cresson, $8.50; Altoona, $8.00; Tyrone, $7.65; Clearfield, $8.90, Bellefonte, $8.65; Bedford, $8.50; Huntingdon, $7.10; Mifflin, $5.65; proportionate rates from other points.

The tickets will permit of a stay of nearly two weeks, and a choice of either of the seashore points named above will be allowed. A special train of parlor cars and day coaches will leave Pittsburg on each of the above mentioned dates at about 8.50 a. m.

For detailed information in regard to rates and time of trains apply to ticket agent, Mr. Thomas E. Watt, District Passenger Agent, Pittsburg, or to Tourist Agent, Room 411, Broad Street Station, Philadelphia.

A Remedy of Great Value.

In an article on Proprietary remedies, which appeared in a recent issue of the "St. Louis, Mo., Medical Brief" Prof. Willard H. Morse, M. D. F. B. S. Sc., of Westfield, N. J., says: "One notable instance in point of efficacy is offered by Dr. David Kennedy's Favorite Remedy which has earned reputation as curative of Bright's disease and other affections of the kidneys." In concluding the article, Dr. Morse says: "Manifestly therefore, treatment of the kidneys and bladder, both preventive and curative, calls primarily for the exclusion of all factors causative of functional derangements. Diseases of the kidneys demands reestablishments of normal functions, destruction of the micro organism causing the disease, and repair of the ravages. These three demands are fulfilled by Dr. David Kennedy's Favorite Remedy—it reinstitutes and regulates the renal functions, it destroys the causal germ, and repairs the broken down tissues."

Dr. David Kennedy's Favorite Remedy is an unfailing specific for such diseases as rheumatism, neuralgia, biliousness, dyspepsia, kidney and liver complaints. In Bright's disease, diabetes, urinary troubles and the sickness peculiar to women, it cures where all else fails. 6-27-1t.

His 59th Birthday.

A birthday surprise party was held at the residence of Mr. Wm. B. Miles, of Milesburg, on Saturday evening last, it being William's 59th birthday. It did take him so much by surprise, he wilted at once on seeing the multitude marching into the house and taking possession of the same. A portion of the fair sex at once began to prepare for a lawn supper as the room in the house was not sufficient to hold all the guests. The tables were spread with the necessaries of life which the unexpected party had brought with them. They came for a good time and from all indications all enjoyed themselves hugely. There were forty six present. Most all who were present from Howard were relatives. Two clergymen were present, viz: Rev. J. B. Soule and Rev. G. E. King. The company formed at the house of Oscar Miles, and marched two by two and entered the parlar to the utter surprise of Mr. Wm. Miles. After supper the organ was taken out on the porch and several delightful songs were rendered, led by L. T. Eddy. The young poeple had a delightful time and all were happy.

Important Facts.

If you have dull and heavy pain across forehead and about the eyes; if the nostrils are frequently stopped up and followed by a disagreeable discharge; if soreness in the nose and bleeding from the nostrils is often experienced; if you are very sensitive to cold in the head accompanied with headache; then you may be sure you have catarrh; and should (immediately) resort to Ely's Cream Balm for a cure. The remedy will give instant relief. 6-27-1t

Julia Magruder's New Novel.

Miss Julia Magruder, whose story of "The Princess Sonia," in the *Century*, is attracting such favorable comment, has given her new novel to *The Ladies' Home Journal*. It is called "The Violet" and deals with the question of second marriage. Mr. C. D. Gibson, the illustrator, is making a series of pictures for the novel.

Dr. J. W. Hamer, who is attending Geo. Geisel, the young man who while driving for Contractor Ott, near Johnstown, had his arm horribly crushed by being bitten by one of the stallions last Tuesday, reports that Mr. Geisel's condition has improved. The arm can be saved.

Found Her Husband's Remains.

On September 28, 1874, twenty years ago, the body of A. N. Rich, of Springfield, Mass., was found in the railroad yards at Williamsport, and after a coroner's inquest was buried in the grave that had been dug for Wade, the murderer of the McBrides, who lived near Linden. It was not until a few days ago that Rich's wife learned where the remains of her husband were buried, the search having been instituted in order to secure a pension, and she is now making arrangements to have them removed. As already stated the grave had been dug for Wade the day he was hung, but after the execution the relatives of the dead man had the remains taken to Northumberland. Before the grave was filled Rich's body was found and buried therein instead.

Maj. Gordon W. Lillie, "Pawnee Bill," is a noted Indian Interpreter, guide and scout, and the duty elected white chief of the Pawnees, and as chief of the Oklahoma Boomers he led in the largest colony April 22, 1889.—*New York World*, May 5, 1889.

F. H. THOMAS, Supt.

HASTINGS—O'CONNER SUIT.

Nothing has Yet Been Done—What the Information Contains.

Ebensburg, Pa., June 20.—The sensational and very important libel case of Governor Daniel H. Hastings against Francis J. O'Conner, of Johnstown, ex-district attorney of Cambria county, did not open to-day.

The governor's distinguished party arrived in Ebensburg yesterday afternoon on a special train of an engine and the Pullman sleeper "Columbia." Among those gentlemen who are interested on the governor's side and who are in the county seat at present are: Colonel T. J. Hudson, chief of artillery on the governor's staff; Colonel J. H. Gray, paymaster during the Johnstown flood; Captain E. Y. Breck and Colonel S. W. Hill, quartermaster general, formerly on the staff of Governor Beaver, all of Pittsburg; ex-Lieutenant Governor L. A. Watres, of Scranton; Hon. W. S. Kirkpatrick, of Easton; John P. Harris, of Bellefonte; F. W. Crider, of Bellefonte; William P. Duncan, of Philipsburg; Isaac Mitchell, of Bellefonte; Colonel B. Frank Eshleman, of Lancaster, a member of Governor Beaver's staff; Colonel William J. Elliot, of Philadelphia, a member of Gover-Hasting's staff; Colonel J. B. Kremer, of Carlisle, secretary of the relief commission at Johnstown; Colonel H. D. Paxon, of Philadelphia: Major W. A. Gherst, of Lebanon, Eighth regiment, National Guards of Pennsylvania; Major B. D. Evans, of Harrisburg; Colonel W. F. Reeder, of Bellefonte, on the governor's staff; W. Malin, of Bellefonte; Senator Critchfield, of Somerset; Secretary Edge, of the department of agriculture; Colonel H. L. Douglass, of Baltimore; ex-Governor James A. Beaver, Cyrus Elder, of Johnstown, and the attorneys, Messrs. William W. Wilbank, of Philadelphia; Colonel H. H. Kuhn, H. W. Storey, and R. S. Murphy, of Johnstown.

The plaintiff's statement of the case in brief is as follows:

"That the defendant F. J. O'Conner, untruthfully, willfully and maliciously uttered of and concerning the plaintiff Daniel H. Hastings certain words of which are as follows:

"The defendant falsely and maliciously said in Johnstown in the hearing of other persons on the 25th day of October, 1894, that when General Hastings assumed charge of Johnstown after the flood, he was practically bankrupt, but after leaving Johnstown after the lapse of a certain period of time, did satisfy all judgments entered against him, meaning that he did misuse and appropriate funds set aside for the succor and help of the people of Johnstown to his own private uses all of which is denied by the plaintiff.

That General Hastings built a fine mansion in Bellefonte and bought $60,000 worth of Bellefonte and other bonds, meaning that he had appropriated to his use funds belonging to the Johnstown sufferers, all of which is untrue.

That General Hastings spent $33,000 to secure the nomination of governor in 1891.

That he demanded to know whether the orphans and other sufferers got all the contributions sent to the hero of Johnstown, meaning that the plaintiff had diverted from the proper channel certain money received from divers sources for the relief and succor of the orphans and homeless, and meaning to cast ridicule and contempt upon the plaintiff.

Whereupon the plaintiff claims damages in the sum of $50,000.

[Signed] DANIEL H. HASTINGS.

Sworn to before Edwin C. Freeman, notary public.

Fatal Shooting Affray.

Port Jervis, N. Y., June 20.—News has just been received here from Sussex county, N. J., of a fatal shooting affray. At the cross roads near the river live two men by the name of Hehn. On Tuesday night last two men attacked the Hehn residence, but were drived away after a number of shots had been exchanged. On the following day, during the absence of the two brothers, the two men returned and renewed the attack. There was no one at home except a boy employed about the farm.

The boy seized a shot gun and again drove the men off the place, following them as far as the woods nearby, where the strangers made a stand. A number of shots were exchanged, during which one of the men fell dead. His companion carried his body to a wagon nearby and drove rapidly away. The boy, who was uninjured, gave himself up. The identity of the strangers could not be obtained.

As to Venezuela.

Washington, June 20.—From the tenor of recent dispatches from Venezuela, it is inferred that France is still dissatisfied with the the South American republic for its practical expulsion in March last of the French minister, Mr. Montclair. It is not expected that France's irritation will lead her to make war upon Venezuela, but it is thought that France may delay for some months sending a diplomatic representative to Caracas in order to emphasize her dissatisfaction with the treatment accorded to Mr. Montclair.

The annual reunion of the survivors of the gallant Fifty-fourth regiment will be held at Meyersdale, Somerset county, on September 19 next, and the veterans of the metropolis are making preparations to entertain the visitors in a hospitable manner.

ARE THEY GUILTY?

Disclosures of a Sensational Nature Made in Buffalo.

Buffalo, N. Y., June 20.—Disclosures of a sensational character, implicating a trusted banker, a resident and prominent citizen of the interior of the state in the conspiracy to defraud insurance companies by setting fire to a malt house in Penn Yan, has been brought to light in connection with a civil action which came up in the United States circuit court now in session at Canandaigua.

M. F. Sheppard, president of the Yates County National bank, a wealthy and influential citizen of Penn Yan and a prominent politician, is charged with being the chief operator in the alleged fraud, and C. H. Bush, an extensive merchant, of Penn Yan, is alleged to have been a party to the conspiracy.

D. C. and W. Hubard, brothers, who live in the same village, are also named as defendants in the action. These two brothers confessed to having been hired by Banker Sheppard for a consideration of $200 to burn the insured buildings, and are charged in the complaint with having actually set fire to said buildings on Jan. 2 1894.

The action in question was brought by the Ætna Insurance company against the above named four defendants to recover its share, $31,492, of the insurance money paid on the fire. Five other insurance companies issued insurance, the aggregate amount being $25,700. Similar suits will be begun by each of the other companies.

The prominence of the men attaches great importance to the case. Every effort was made to suppress the matter.

Howgate Found Guilty.

Washington, June 21.—The jury in the Howgate case brought in a verdict of guilty on each indictment to-day. One indictment charged Howgate with forgery and the other with a falsification of his official accounts. Captain Howgate was in court, accompanied by his daughter by his daughter, and listened to the polling of the jury without any evidence of emotion. There was no scene of any kind. The attorneys for the defense at once moved for a new trial. No action was taken by the court and it is not known when sentence will be imposed.

The penalty for the offense of which Captain Howgate was convicted is confinement in the penitentiary from one to ten years in each case, so that the punishment in his case may be confinement from two to twenty years. Accompanying the verdict was a recommendation to the court for clemency.

It is hardly believed that Judge McComas will grant a new trial, but the attempt will be made to take the case to a higher court on appeal. During the preceding trial, which resulted in disagreement testimony was admitted going to show that Captain Howgate had been seen many times by those who were supposed to be interested in his apprehension, but in this case the court refused to admit testimony to refute the charge that the prisoner was a fugitive from justice.

The verdict was a surprise, as an acquittal had been confidently expected.

Suicide and Murder.

Philmont, N. Y., June 21.—A horrible case of suicide and murder occurred here this forenoon in which Harry Krooz and George Jacobi are the victims.

Krooz is the agent of the Harlem road here, having filled the position for the past twenty-three years. Jacobi is his father-in-law and acts as the assistant agent. Krooz was about 43 years of age and Jacobi 62. Krooz killed Jacobi by shooting him in the back of the head and then killed himself by firing a bullet into his own head. The motive for the crime is a mystery, as both were on the friendliest terms. Krooz had been discharged and the relief agent was on the train that arrived shortly after the tragedy occurred to relieve him. There is said to be no shortage in his accounts, but that he had become careless in doing his business. Krooz leaves a wife and four children, one being a married daughter.

A Jersey Hanging.

Morristown, June 20.—August Bergman, who murdered his brother Julius, in Sterling, on February 23, 1893, was hanged for the crime in the Morris county jail at this place to-day.

When the drop fell the body of Bergman bounded into the air fifteen feet. He was pronounced dead after nine minutes. His death was caused by strangulation.

The execution of Bergman was the first in eight years in Morris county, and it attracted a big crowd of people. Farmers from the surrounding country drove into town in their wagons, and Morristown presented a sort of a holiday appearance.

About an hour before the execution a guard of fifty veterans of A. T. A. Torbert post No. 24, Grand Army of the Republic, surrounded the jail and stood guard on the outside until the execution was over.

The Injunction Dissolved.

Chicago, June 20.—Judge Payne this morning dissolved the injunction obtained by members of St. Hedwig's parish restraining Archbishop Feehan from opening St. Hedwig's Polish Catholic church with Father Sedlaczek as pastor. Father Sedlaczek is a priest of the Resurrectionist Order and a large number of the parishioners objected to having a priest of that order as their pastor.

HENRY HOUSTON DEAD.

He Had for Many Years Been a Director of the Pennsylvania Railroad Company.

Philadelphia, June 21.—Henry Howard Houston, for many years a director of the Pennsylvania railroad, died suddenly at 1 o'clock this morning from heart failure at his country residence at Wissahickon Heights. Mr. Houston's wealth is estimated at $15,000,000. He was a trustee of the University of Pennsylvania, director in the International Navigation company, the Pan Handle railway, the Cumberland Valley railroad, the Pennsylvania Steel company, the Erie and Western Transportation company and was also identified with the management of other concerns. He was deeply interested in Episcopal church work and was well known as a philanthropist. Mr. Houston was in his 75th year.

Henry Howard Houston was born near Wrightsville, York county, Pa., in October, 1820. His ancestors came from Ireland and settled in Lancaster county between 1725 and 1730. His grandfather, with four brothers, served in the revolutionary army throughout the war. The early life of Mr. Houston was spent in Wrightsville, near Columbia, Pa. Upon leaving school he became connected with iron furnaces in Clarion and Venango counties, and, in 1847, entered the office of D. Leech & Co., in Philadelphia, who were prominent in canal and railroad transportation. He remained with this firm for three years, when Colonel William C. Patterson, then president of the Pennsylvania Railroad company, selected him to organize and manage the freight business of the line, which the company had just completed from Philadelphia to Pittsburg, consisting of the road to Hollidaysburg, the state Portage road and the canal from Johnstown westward.

The Pennsylvania railroad was completed to Pittsburg in 1853 and he continued in charge of the freight department until 1865. Special transportation interests then engaged the attention of Mr. Houston and his associates, whose time and energies have since been devoted to large enterprises of this kind.

Mr. Houston was a successful investor in the oil regions of Pennsylvania in the early days of the development of that industry and held extensive interests in gold and silver mines in Colorado and Montana.

Held Them Guilty.

Hollidaysburg, Pa., June 21.—The investigation by the Blair county grand jury of the official misconduct of County Commissioners J. Funk and J. Hurd was concluded this afternoon by the indictment of the officials for misdemeanor in office and the indictment of Hurd alone for subornation of perjury. Judge Bell directed that bench warrants be issued for the immediate arrest of the accused.

The jury in their presentment to court find that the two commissioners purchased material and hired two workmen to paint and paper the court house without any contract letting. The workmen were painters who were employed by Hurd in his private business. They only received daily wages and indorsed the county treasury drafts for larger amounts to M. Hurd. It is alleged that the commissioners pocketed $516 in profits off the transaction.

The officials are also charged with appropriating money to their own use for constructing a bridge at Gardeners Mills.

The complaint against Hurd for solicitation to permit perjury recites that during the progress of the county auditor's investigation Hurd met W. C. Leach, the painter, who was the star witness against him and offered him a bribe of $100 not to give the snap away to the auditors.

The grand jury exonerated Commissioner Millard Eagley from any complicity in his associates misdoings. The sheriff will bring the accused before the court to-morrow.

Quay in Philadelphia.

Philadelphia June 21.—United States Senator Quay arrived here this morning and was soon deep in the big mass of correspondence that had accumulated during his absence. During the day Mr. Quay saw a number of the local leaders, but as usual it was impossible to learn what Mr. Quay's intentions are, as to his plan of campaign against his foemen in his own party. When Mr. Quay gets ready to make an announcement he does so, but until he does give his views for publication it is practically impossible to extract any thing from him as to what he intends to do.

Quay's friends here are urging him more strongly than ever to become a candidate for the State Chairmanship, and it is possible that he may be prevailed upon to make the fight for the position.

To Eradicate Revolutionists.

Ampala, Salvador, June 21.—President Gutierrez, of Salvador, Bonilla, of Honduras, and Zelaya, of Nicaragua, have been in conference here several days to prevent exiles of any of these countries residing in either of the others from fomenting revolutionists. The absence of such an agreement has been the most fruitful source of revolutionists in these three countries and the Presidents in conference have reached a practical understanding which is confidently expected to eradicate the evil and to assure peace in Central America.

REFERRED EVERYTHING.

And the Silver People Were Thus Left Out in the Cold.

Cleveland, Ohio, June 21.—It was 11 o'clock when the convention of National League of Republican Clubs was called to order. After some discussion as to the method of selecting a secretary W. J. Dowling, of Minnesota, was elected. Mr. Dowling is a member of the Minnesota delegation and one of the most active republican workers of that state. The defeated candidates were John Brynes, of Colorado; William Grant Eden, of Illinois, and T. E. E. Walker, of Nebraska.

The position is one involving much clerical labor and pays $3,000. Horace G. Knowles, of Delaware, the secretary, reported the resolutions, Chairman Robinson having been obliged to take a train for his home on account of urgent business. There was not even a show of fight over the resolutions.

When Senator Thurston, who was in the chair, put the motion on the passage of the resolutions a loud chorus of ayes arose. Only three or four feeble noes were heard when the other side of the question was put. The resolutions in full are as follows:

Whereas section 3 of the constitution of the Republican League of the United States says: "This league shall not in any manner endeavor to influence the action of any national, state, county or municipal convention," we, the delegates of the Republican League of the United States, in convention assembled, do hereby renew our allegiance to the principles of the republican party, and pledge our best efforts for the success of the candidates of that party. Believing that this convention has no instructions from the republicans of the United States or jurisdiction under the constitution to frame or enunciate party platforms, we hereby refer all resolutions in relation to public questions to the republican national convention of 1896, with entire confidence that its action will redound to the prosperity of our people and the continued glory and advancement of our country.

The convention adjourned sine die.

NEW DISCOVERY.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take he place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Crown Silver Tea Spoons *Free*, to every person who will send for one of our Terry's Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Silvereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons.

Price of Silvereen set, $2.00. f7,2y.

PROOF IS POSITIVE

THAT LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Is Daily Curing Backache, Dizziness, Faintness, Irregularity, and all Female Complaints.

[SPECIAL TO OUR LADY READERS.]

Intelligent women no longer doubt the value of *Lydia E. Pinkham's* Vegetable Compound. It speedily relieves irregularity, suppressed or painful menstrua-

tions, weakness of the stomach, indigestion, bloating, leucorrhœa, womb trouble, flooding, nervous prostration, headache, general debility, etc. Symptoms of

Womb Troubles

are dizziness, faintness, extreme lassitude, "don't care," and "want to be left alone" feelings, excitability, irritability, nervousness, sleeplessness, flatulency, melancholy, or the "blues," and backache. Lydia E. Pinkham's Vegetable Compound will correct all this trouble as sure as the sun shines. That

Bearing-Down Feeling,

causing pain, weight, and backache, is instantly relieved and permanently cured by its use. Under all circumstances it acts in perfect harmony with the laws that govern the female system, is as harmless as water. It is wonderful for *Kidney Complaints* in either sex.

Lydia E. Pinkham's Liver Pills work in unison with the Compound, and are a sure cure for constipation and sick-headache. Mrs. Pinkham's Sanative Wash is frequently found of great value for local application. Correspondence is freely solicited by the Lydia E. Pinkham Medicine Co., Lynn, Mass., and the strictest confidence assured. All druggists sell the Pinkham remedies. The Vegetable Compound in three forms,—Liquid, Pills, and Lozenges.

"A FAIR FACE MAY PROVE A FOUL BARGAIN." MARRY A PLAIN GIRL IF SHE USES

SAPOLIO

Verdict for Hastings.

Johnstown, June 21.—Governor Hastings to day got a verdict for $3,000 against City Solicitor Francis Joseph O'Connor, of this city, for slander. The whole case was disposed of in about five hours and it was devoid of any sensational interest.

Yesterday there were rumors that the action of Governor Hastings against the Johnstown attorney would not come to trial and there was talk of an amicable arrangement outside of court and to-day's proceeding showed that the rumors were not entirely without foundation, although the case was actually called and the prosecution brought in a lot of testimony in vindication of the complaint.

It is understood that a practical understanding had been reached and that Gov. Hastings did not want anything more than a vindication. This he got in the verdict which the jury returned at 6 o'clock this evening without leaving the box.

A fire at Alexandria about 2 o'clock on Thursday morning destroyed the dwelling house and barn on the outskirts of the farm of Antis Ellis, on the outskirts of that borough. The stock in the barn was removed in safety, but the balance of the contents, together with a large portion of his household goods, were burned. The origin of the fire is not known.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Hot :- Work

It is a pleasure to cook when the housewife has such dainties as can be found at the EUREKA GROCERY. The best flours, prepared food of all kinds, canned meats, fish, etc.

Price the times. Call and see for yourself. Store on High street, next door to post office

SCRIBNER'S MAGAZINE

AN IMPORTANT CLUB OFFER

SCRIBNER'S MAGAZINE

The Bellefonte Paper.

-AND-

The Bellefonte Republican

For $3.75.

If purchased separately these periodicals would cost $4.50.

IT IS THE PLAN OF SCRIBNER'S to give its readers next year a history of the past 25 years in the United States. (1894-95.) These years have been unparralleled in the history of the world for national development and material progress. The narrative will be written in a graphic and picturesque style by President Andrews, of Brown University, and capable artists will illustrate it.

ROBERT GRANT whose "Reflections of a Married Man" will long be remembered, has written a series of articles on "The Art of Living," in which he sets himself to solve, as far as such problems can be solved, questions which beset every well-to-do family: The Income—The dwelling—Household Expenses—Education of Children—Married and Single Life—The Summer Problem, etc., etc. Beautifully illustrated.

GEORGE MEREDITH, whom more than one good authority has pronounced the greatest of living novelists, has written a strong serial, "The Amazing Marriage" to begin in January.

D. HOWELLS, will contribute a novel entitled "The Story of a Play."

IN THE LAND OF DONQUIXOTE will be a series of three sketches illustrated by Daniel Vierge's wonderful drawings.

SINGLE ARTICLES in great variety have been arranged for and the illustrations will be eleborate.

Scribner's For 1895 Will Be Better Than Ever.

If you desire only SCRIBNER'S MAGAZINE remit $3.00 to the Publishers:

CHAS. SCRIBNER'S SONS,
155-137 Fifth Avenue, N. Y.

They Are Now Laws.

These bills were approved yesterday by Governor Hastings: Validing purchases or leases heretofore made or acquired by water companies of lands to preserve their water supply from contamination; to prevent physicians and surgeons from testifying in civil cases to communications made by them by their patients; to protect berries and nuts by punishing trespass; relating to the lien of judgments against descendents; to amend an act to authorize and require county commissioners to furnish supplies and fuel for certain county offices, so as to include certain additional articles of supply; to abolish days of grace on promissory notes, drafts, &c., and to determine when such obligations maturing on Sunday, or on legal holidays or half holidays shall become due; to repeal certain sections of an act to amend the road laws of Erie county; to amend the act relating to marriage license; relating to the county wherein to secure the license; to provide for the more effectual protection of the public health in the eral municipalities of this commonwealth; to determine the status of typewriting; appropriating $17,500 for the payment of the salary of the dairy and food commissioner and his necessary expenses as agent of the state board of agriculture for the two years ending May 31, 1895.

Is There No Penalty?

The finding in the Crathie-Elbe disaster practically decides what was clear from the early accounts—that the Crathie ran into the Elbe because the watch on the English vessel was asleep or inattentive. It was early in the morning, when men are routed out after 4 hours sleep, and on the Crathie no one was watching.

Unfortunately, neither English law nor any other law imposes any adequate penalty for this. Life-long imprisonment would be inflicted for like carelessness on land leading to like loss of life. At sea the penalties are light and generally none are inflicted. If the Crathie were an American vessel we doubt if any indictment would lie or if any punishment could be inflicted for a failure to keep a lookout. So in the question of civil damages for loss of life in a marine disaster our law restricts the aggregate sum recoverable to the value of the vessel.

This was right once. It is right no longer. The Colima, with its apparent proof of disregard of human life in the deckload which swamped the vessel, ought to lead our navigation laws to be overhauled and heavy criminal penalties imposed for carelessness and the limit of damages for the loss of life in wrecks re- n altogether.

A Barrel Busted.

On Tuesday of last week Earnest Stine, of Pleasant Gap, a lad of eighteen or nineteen years, had an experience with an empty whiskey barrel that he will not soon forget. He was trying to make a hole in the barrel by using a red-hot piece of iron. The process worked very successfully unti the iron pierced the barrel and then a terrific explosion occurred that busted the barrel into splinters. Young Stine was knocked back some distance by force of the explosion and was unconscious for about a half hour after the explosion. His face is burnt and punctured all over with little black specks. The force of the explosion was sufficient to break some of the rafters overhead.

This is a warning not to monkey with a whiskey barrel whether full or empty—it is liable to knock you silly anytime.

Weather Crop Bulletin.

The Pennsylvania State weather service has issued the following crop bulletin for the week ending June 17th: The temperature of the past week was slightly above the average, and the rainfall slightly below, with a large percentage of sunshine. While all crops made fair progress, more warmth and moisture are needed for rapid growth and development. Small grains are doing very well. Wheat is filling rapidly and beginning to color. Some meadow grass and clover harvested but the yield is reported as light. Corn and vegetables were much improved by late rains. The fruit crop will be a short one. In some sections the prospect for apples is fair. Cut worms continue very destructive. Potato bugs are decreasing.

Centre Countian's Death in the West.

Mrs. Wm. Kreamer received a letter from her brother, Mr. Peter Zeigler, of East Germantown, Ind., conveying the sad news of his wife's death, which occurred on last Thuasday, June 13th, while on a visit to her daughter in Decatur.

Deceased was a daughter of Mr. John Ruhl, late of Miles township, deceased, where she was well known and had many friends. A severe attack of la grippe which she took a few days before her death brought on a complication of other diseases, and though the best medical aid was procured, she fell a victim to the grim monster before her husband and son reached her bedside. The funeral took place on the 15th inst.

A Town Retrograding.

The town of Brisbin, in Clearfield county, is being depopulated on account of the coal being worked out in that section. The value of property has so declined that it is almost impossible to make a sale in the place. Properties are being deserted and their owners offer them for sale at your figure. We learn of one in part cular that a few years ago was sold for $4000 which to-day can be bought for as many hundred.

Good Advertising.

Good advertising is one of the best helps for successful retailing. It brings in the trade, says the Dry Goods Economist. This fact is so clearly demonstrated by the men in all parts of the world that further argument on the question really seems superfluous.

It is not enough to "keep store" in these days, but, in order to keep your business going at a pace that your rival can't outstrip, you've got to let the public know what you are doing. You may know all about it yourself; you may know that you have the best store in town, equipped with every facility for doing business properly, and lots of other people may know it, too—they gradually find it out by one telling another—but the great public don't know it, and won't know it, until their attention is sharply called to the fact by intelligent, forceful advertising. It is wonderful how the work of years can be accomplished in a few brief months by the right kind of publicity. Many a wide awake business man has been forced from obscurity into the favorable notice of the public eye, and then kept there through each succeeding year as steady and strong as the sparkling stream that unites the vast ocean with its humble source in the distant hills.

Apple Growing.

Few farmers are aware of the extent of the foreign apple trade of this country. They do not know, says the Lancaster New Era, that in favorable seasons we have sent to Europe over two million barrels of apples. Secretary Morton has just made known the fact that during the nine months ending September, 1894, Great Britain alone paid this country $2,500,000 for the apples we sold her, and it was not a very good apple year either. In the face of the present depressed prices of the ordinary farm products, we have in this a fact that is deserving of careful attention and consideration. It is seldom that more apples are grown here in Lancaster county than are required for home consumption. We never have any to spare to send away. The apples that are exported nearly all come from New York and New England, and are found by the farmers in these States to be a much more profitable crop than wheat, corn or oats.

It is commonly held in this locality that there is no money in the orchard.

Giving the Devil His Dues.

The man who knows that God is with him will always be careful where he steps.

Our neighbors see our faults but they haven't seen the bitter tears they have made us weep.

Keep the devil away from your children and he will soon have to give up the saloon.

We hate our own sins most when we see them walking around in the shoes of somebody else.

Has Disinfecting Properties.

Toasted bread is a favorite article of diet with most people. Why is it so, perhaps those who use it most liberally know the least about. It is said that in the process of toasting a peculiar chemical change is effected in the bread making it more appetizing and conferring additional valuable properties. The brown material with which it is encrusted is said to be almost identical with the confection known as caramels. It is a further fact that this "toast caramel" has great disinfecting properties, and will make tainted meat, water or game perfectly sweet and wholesome. Toasted bread seems to have enough excellent qualities to make it a favorite food, even though they may not be known to those who consume it.

The Lazy Man's Way.

At Longport, just below Atlantic City, you can see these days numerous disciples of Izaak Walton. Noticeable among the lot recently was an elderly man, who had three lines in the water. He was catching as many fish as the others and with considerable less effort. The lines of this ingenious individual were fastened to small pieces of umbrella ribs about 12 inches long. About one inch from the end of the wire were fastened small sleigh bells. When he cast the line into the water he drew it taut and then stuck the wires into the ground. When a fish nibbled at the bait the bell would jingle and thus draw the attention of the fisherman to the line.

Ridgway Somnambulist.

Elk Democrat: Alfred Johnson, son of Thomas Johnson, of West Ridgway, met with a painful accident the other night. It appears that he is something of a somnambulist, and in his sleep climbed out of his bed-room window, in the second story, and awakened to find himself hanging from the upper window, and kicking in the lower window, through which he afterwards climbed. His body was considerably lacerated by broken glass, one of his hips having been cut so badly as to expose the joint. He is now doing as well as can be expected.

Westmoreland Populists have resolved that $4,000 a year is enough salary for any county officer, and that any fees in excess of that amount should be turned into the county treasury. Yet none of the candidates nominated on the Populist ticket have pledged themselves, if elected, to turn in the surplus, though such a promise with a guarantee of fulfillment might gain a good many votes for Mr. Frye for Sheriff. That office pays about $20,000 a year, and it is safe to say Mr. Frye will take it all, if elected, which is not a dangerous possibility.

Germany's Waterway.

The magnificent ceremonies at Hamburg yesterday for the inauguration of the North Sea and Baltic ship canal are an object lesson on the subject of waterways. The assembled navies of the world join the German Government in celebrating the completion of the great work, by which the waterway has been opened for the use alike of naval armament and peaceful commerce. The occasion is well worth the display, fully reported and illustrated in the news columns of this issue.

The addition to Germany's naval strength afforded by this short passage from ocean to sea affords the feature that appeals most prominently to the political sense of Europe. It is this aspect of the canal that gives rise to the talk of hostile demonstrations either by extremists among the French or by Ishmaelite Anarchists. Any such demonstrations would be senseless, because, though the warlike uses of such a waterway will be important they will be far less so than its utility to commerce. While the canal may in some single year of the future, when the calamity of war is visited on Enrope, be a factor in the mutual destruction, it will during every year of peace serve commerce and furnish transportation to useful trade. It would be as reasonable to destroy food and clothing because with them armies may subsist as to attack in ship canal because it may furnish passage to navies.

The commercial uses of ship canals constitute their greatest utility, and really form the lesson, which the event so prominent in to-day's news gives to this country. The greatest prosperity has been secured to continental nations by their care to create internal waterways and the most prominent of their cities are those which have been most enterprising in extending their water transportation. By every argument that has given existence to the canal at Kiel the creation of internal water ways in this country, and especially such an one as will connect the immense tonnage of this section with the lakes, is quadruply demonstrated.

That is the lesson of the German work in this nation and especially to Pittsburg. It should not be lost upon us.

Hot Weather Wisdom.

Dark, close-fitting and such as compresses the chest and neck should be avoided during the heated term. Light clothing and a straw or light felt hat, permitting free circulation, are preferable. On very hot days one should drink frequently, but in small quantities; but ice water or iced drinks entering the stomach at one time in large quantities is injurious. Cool water, into which oatmeal has been stirred is a safe and refreshing drink. Water should not be drunk in considerable quantities at a lower temperature than spring water—namely, 56 degrees. The immoderate use of alcoholic beverages is also dangerous. The sleeping room should be freely ventilated and cool. Constipation should be avoided. When overheated one should work slowly, frequently cooling the head, chest and back with cold water. Keep a wet cloth or some green leaves in the hat on the head, frequently wetting them with cold water. A person sufferng from sunstroke or heat exhaustion should be taken to a cool place where there is plenty of fresh air, the clothing stripped to the waist and the sufferer placed in a recumbent position. Cold water should be poured upon the head and chest until conscious ness returns. The blood may be most effectually cooled at the wrists, temples and ears. Ice may be applied to the head and chest and rubbed over the body; but if the skin is cold, no ice should be applied. The patient should be placed in the hands of a competent physician as soon as possible.

Another Pension Decision.

Assistant Secretary of the Interior John M. Reynolds Thursday rendered a decision in a pension case which will require wives of soldiers who have disappeared or deserted them to prove without doubt his death, before a pension be granted them. The case in question was that of Melinda E. Crider, the alleged widow of Daniel Crider, a soldier, who, from the evidence given, deserted her in Pennsylvania, in May, 1868. The soldier was in the best of health and left her deliberately. From the testimony of certain witnesses, it appeared that his departure was caused by another woman in the case.

The remark of the Boston "Journal" that "It is a long time since Harvard and Yale have taken so many defeats from the small college nines as they have received this year" sums up to the observations of a good many people who have been watching inter-collegiate athletics. The fact is an encouraging one. It shows that no two or three colleges and universities have a monopoly of the interest in athletics. A few years ago the contrary was the case. Inter-collegeiate foot ball, base ball and rowing were hardly known outside of Harvard, Yale and Princeton. Now there are a host of competitors in the field, and the teams from the larger universities find themselves compelled to put forth their best efforts to meet the teams from colleges that they despised a few years ago. This is better for the large colleges and the small colleges, for inter-collegeiate athletics and t e growth of an athletic spirit in general.

There is a good story told about a remarkable head of Bonaparte which appears in McClure's Complete Life of Napoleon. This head is a copy of the first plaster cast made for a figure of Napoleon, which appears in the pediment of the Pantheon in Paris. It seems that in the reign of Napoleon III. the Archbishop of Paris persuaded the Goverment to destroy the pediment of the great temple because Voltaire appears in it. The order had been given to execute this piece of vandalism when Baron Larrey son of the chief surgeon to Napoleon I. and himself ex-military surgeon to Napoleon III., happening to be with the emperor at the camp of Chalons, conceived the noble idea of trying to save the sculptures. At the emperor's table, Baron Larrey adroitly turned the conversation to David, and informed the sovereign, to his surprise, that the proudest effigy of Napoleon was to be seen on this pediment. Bonaparte, in fact, is represented as seizing for himself the crowns distributed by the Fatherland, while the other personages receive them. On hearing this Napoleon III. was silent, but the next day the order was given to respect the pediment. We believe this is the first time that this cast has been reproduced.

—Those who are fond of novelties will enjoy watching the growth of a "silver tree," which is very curious and beautiful. Fill a clear glass jar with clean water, in which is dissolved enough sugar of lead to make a strong solution. Tie one end of a short piece of strong twine to a piece of zinc about as large as a hen's egg, and the other to a stick long enough to lay across the mouth of the jar (thus suspending the zinc within about an inch below the surface of the water) and place it where it will not be disturbed. In two or three days delicate feathery branches will start out all over the zinc. They grow very rapidly and in a few days more the jar will be full of beautiful, sparkling silvery mass. If not shaken it will last a long time.—Ex.

—As a result of the investigation made by the Blair county auditors one of the County Commissioners is to be indicted for malfesance by reason of being interested in a contract for public work. The conviction of one public official of such abuse of his prerogatives will create no general satisfaction so far as the individual case is concerned, but in the abstract it may be valuable in deterring others from following his example. It is an urgent necessity of the time to teach a wholesome regard for the laws to people in both private and public life. The disregard and contempt for law and consideration for the rights of others has become a distinct evil of the day.

—All of the seven planets are now visible in the early evening. Venus is especially brilliant in the western t will increase in brightness during the next two months.

ABSOLUTELY PURE
THE OLD RELIABLE
SWEET CAPORAL
CIGARETTE
Has stood the Test of Time
MORE SOLD THAN ALL OTHER BRANDS COMBINED

REMEMBER there are hundreds of brands of White Lead (so called) on the market that are not White Lead, composed largely of Barytes and other cheap materials. But the number of brands of genuine

Strictly Pure
White Lead

is limited. The following brands are standard "Old Dutch" process, and just as good as they were when you or your father were boys:

"Armstrong & McKelvy,"
"Beymer-Bauman,"
"Davis-Chambers,"
"Fahnestock."

For Colors.—National Lead Co.'s Pure White Lead Tinting Colors, a one-pound can to a 25-pound keg of Lead and mix your own tints. Saves time and annoyance in matching shades, and insures the best paint that it is possible to put on wood.

Send us a postal card and get our book on tints and color-card, free; it will probably save you a good many dollars.

NATIONAL LEAD CO., New York.
Pittsburg Branch,
German National Bank Building, Pittsburg.

MALARIAL POISON

Results from atmospheric conditions, unclean premises, imperfect ventilation and more frequently from the deadly SEWER GAS. A general rundown and impoverished condition of the blood ensues, and if not corrected, Catarrh, Bronchitis, and even Consumption may be the result. S. S. S. promptly corrects all these evil effects.

Mr. J. A. Rice, Ottawa, Kan., writes: For three years I was troubled with Malaria, which caused my appetite to fail, and I was so reduced in flesh, that life lost its charms. I tried mercurial and potash remedies, but could get no relief. I then decided to try S.S.S. A few bottles of this wonderful medicine made a complete and permanent cure, and I now enjoy better health than ever.

Bellefonte Republican,

TO CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.
Correspondents should write upon but one side of the paper, and avoid the use of pale or colored inks.

EDWARD T. TUTEN.

Local Department.

—Miss Carrie, oldest daughter of Orrin Atwood, was badly bitten by a dog one day recently.

—Mrs. Weaver, wife of deputy-sheriff J. C. Weaver, is quite ill at her home in the jail residence.

—There is a sensational report of a woman beating scrape out at Axe Mann now being circulated.

—Friday's rain was a most delightful one and will do considerable good to the growing crops and gardens.

—Monday's rain, though too late to affect the hay crop, will be very good to the corn and potatoes, and even oats crops.

—The time for the election of a Captain for Company B is steadily approaching, and Col. Amos Mullen has the inside track.

—The Epworth League held a festival in the Methodist church on Monday evening which proved a very successful affair in every way.

—A brakeman named Wilkinson had his hand smashed on the Lewisburg railroad on Friday while assisting in making a flying switch.

—After a long illness with consumption Jerry O'Leary, aged about 26 years, died at his mother's home near South Spring street Monday afternoon.

—A. A. Dale, Esq., and Cal Pifer furnished entertainment for quite a large crowd by bicycle racing on the newly paved diamond Friday evening.

—The members of the Veteran Club of Centre county are already planning for their annual picnic which will be held at Hunter's Park early in September.

—Gen. Hastings' verdict against Francis J. O'Connor was sufficient to carry with it a full vindication of all the charges made, and that was all that was desired.

—James Alexander, Esq., and Andy Loneberger have returned from a three weeks' excursion to the mountains, and brought with them four porcupines and innumerable fish.

—Messrs. Linn & McCoy, of the Milesburg Iron works, are making preparations to operate the Lamborr mine banks up Buffalo Run valley. They already have a force of men at work getting things in readiness for operation.

—A dispatch from Kiel says: "The boiler of one of the steam launches of the United States cruiser Columbia exploded Friday. The cylinder head was blown off and carried overboard, and with it the smokestack and other parts of the launch. Four persons were injured by the explosion and were taken to the naval hospital.

—It is now reported that Major Wm. H. Hastings, brother of Governor Hastings, has lost his reason which was precipitated by his failure in business in Philadelphia. The Major was a good, genial gentleman and his many friends in Bellefonte will deeply regret that such is the case, and sincerely hope that he may regain his reason. He is now under the medical care of physicians in Australia.

—Friday evening James I. McClure shipped to W. A. Marshall, Shamokin, Pa., one pair red foxes, one pair (a black and a gray) coons, two horned owls, two screech owls and one porcupine, for which he received $16.00. Mr. Marshall wants the animals to put in the park at Shamokin as an extra attraction for pleasure seekers. Mr. McClure has a number of other animals that he will dispose of, but he thinks it might be an extra attraction at Hecla Park if the railroad company would establish a small sized Zoo down there.

—Forest Magee, formerly of Bellefonte but who has been a resident of Philadelphia for the last several years, graduated with 1st honors from the High School in that city. He is a son of R. M. Magee, Esq., and a bright young man—Edmund Blanchard graduated at Haverford College this month and in the past four years he has made a record of which he need not be ashamed. He has taken several athletic prizes and stood high in his class. He is now at home and after a few weeks of recreation he will settle down to the study of Blackstone and Kent. We are pleased to state that both gentlemen had the foundation of their storehouse of knowledge laid at the Bellefonte Academy which speaks well of our home institution.

—It will be remembered that at about the time of the death of Rev. George Elliot, of this place, the Curtin family and relatives received the sad intelligence that Mrs. Elliot, of Kansas, was at death's door. She being a sister of Mrs. A. G. Curtin, Mrs. Moyer, Mrs. Elliot, Misses Alice and Mary Wilson felt that the hand of affliction had been heavily laid upon them. Mrs. Moyer went immediately and cared for her and in a short time she revived and with each succeeding day became stronger until she was able to be around again. On last Friday morning both Mrs. Moyer and Mrs. Elliot arrived in Bellefonte much to the gratification of her many relatives and warm personal friends. Mrs. Elliot is a guest of Mrs. Gov. Curtin on High street.

—And Hastings did not back out of his libel case, after all.

—The fall drummers have started on their rounds and travel on the railroads is thus increasing.

—Pawnee Bill's wild west show is heading this way and will be in Bellefonte on or about July 10.

—One week from Thursday is the glorious Fourth, and Williamsport's big centennial begins Tuesday of next week.

—Sunday evening Children's day was celebrated at the Lutheran church with quite an elaborate program of very appropriate exercises.

—Reports from Harrisburg are to the effect that Governor Hastings has given out intimations that lead to the conclusion that he will veto the garb bill.

—The annual report of Superintendent Etters, of the borough public schools, which appear in this issue, is a document of unusual interest to parents and should be read by all.

—Now that the Ladies Village Improvement Society has a fund of two hundred dollars or more we suppose it won't be long until we see some improvement of a superior kind in Bellefonte.

—And there was no band concert Saturday night after all. The Undines give as the reason that so many of their members were out of town, but they promise to give a concert next Saturday night without fail.

—C. C. Cooke's saw mill at Marsh Creek was destroyed by fire on Wednesday night the 12th, with all its contents, big piles of lumber was burned around about the mill. There was no insurance on the property destroyed.

—The Bellefonte School Board met in regular session Tuesday evening and elected the entire old corps of teachers with the exception of Prof. Ammerman, of the High School. This has been left open until the next meeting.

—There at present seems to be a sort of disquietude between Hastings, Quay, Magee, Martin, Gilkeson, and a lot of other prominent republicans which may finally result in retiring some of the number into innocuous desuetude.

—Mrs. John M. Leach, died at Altoona on Monday of this week, and was buried at Graysville Huntingdon county on Wednesday morning. The deceased was about 80 years of age; she was the mother of Mrs. E. T. Cole, Zion, Pa., and is well known by many living in that section.

—Hay making is now in progress in the country and it wont be long until harvest time will be here, as the wheat is already turning yellow. The farmers complain that the grass is very short and, contrary to expectations earlier in the season, there will not be more than a two-thirds crop of hay.

—The Literary Committee of the Y. M. C. A desire to catalogue the books belonging to the library, but in order to make it complete they must have every book. Some people in Bellefonte have books in their homes belonging to the Association; which should be returned at once. Don't delay any longer.

—Whenever you hear a man finding fault with a local paper, open it up and ten to one he hasn't an advertisement in it; five to one he never gave it a job of work to do; three to one he does not take the paper; two to one that if he is a subscriber he is a delinquent; even odds that he never does anything in any way that will assist the publisher to run a better aper.

—The inhabitants of Greensburg, Pa., are very much excited over the discovery of a natural distillery. An old farmer, while digging stones on a hill side, discovered a tiny stream of dark red liquid oozing out between the rocks. On examination it proved to be the very best rye whiskey and now all the old soaks and bums in that neighborhood are digging at that hill.

—Monday Mr. William Jones, of the First National bank, was seventy-five years old and he celebrated the event by taking things a little easier than usual and having a number of friends enjoy a dinner with him. Mr. Jones is one of the most familiar figures in Bellefonte and, although he has seen three-quarters of a century of life he is still hale and hearty. May he live to round out the full century mark.

—This season has had its full share of snake stories and all such, but the New Bethlehem Vindicator has the only original chicken story. It says that a man living below town reports a strange occurrence. One morning about a month ago, as he supposed, he found a fine large hen dead in the coop. He at once divested her of feathers and threw the body into a ravine. Three weeks later he was surprised to find the plucked biddy with a brood of young chicks following her, in the yard again.

—On Thursday a colored man by the name of Tate was coming down the pavement on High street, and when just opposite the postoffice, he ran into a small boy knocking him over against a stone step and almost senseless, injuring quite badly. We were unable to learn the boy's name, but this accident is a very emphatic warning that bicycle riding on the pavement should be stopped, at least, by amateurs, who cannot properly guide and control their wheel. And even for the most proficient riders it is a dangerous business. Bicyclists should keep to the streets at all times.

—This is the last week for paying mercantile tax, says treasurer Miles.

—The A. M. E. church, of Curwensville, Pa., will lay their corner stone on Sunday, June 30th.

—The Reformed Sunday school will picnic at Hunter's Park on Wednesday July 17th.

—Workmen are now engaged putting on the iron superstructuer of the new Lamb street bridge over Spring creek.

—At a business session of the Christian Endeavor Society Monday evening Robert Irvin, Jr., was elected President for the ensuing year.

—The Bellefonte orchestra will go to Pleasant Gap Saturday evening and furnish music for a festival the ladies will hold there for the benefit of the Union church.

—The announcement that Governor Hastings would be a candidate for a delegate from Centre county to the State Convention, was a good bit of a surprise to the ocal republican leaders here, who had even no intimation of anything of the kind until it was seen in the papers.

—The county commissioners are hard at work holding the appeals throughout the county. They encounter a large number of kickers who think that the new valuation of their property "away beyond all reason." But then the commissioners don't always agree with the property owners.

—County commissioners are receiving an official copy of the new compulsory education law, and puzzling their brains how to proceed in cases where parents are too poor to clothe their children properly to send to school. School boards will also be required to solve the problem what to do with the bad boy who can't be kept in school.

—It serves a man right who goes to church and closes his eyes when the contribution box goes around and afterwards ridicules the preacher, who picks up a newspaper somebody else pays for and tells how it ought to be edited, to get roped into a circus and then roar because he did not get ten times his money's worth. That man would be a success at turning a grindstone. He will die some day. The preacher that did not suit him will officiate and the editor he abused will feel like writing: "It's a good thing; push it along."

—The Everett Press says that some time ago an old man named Witherow had violent hiccoughs, and the doctors despaired of saving his life. His mother-in-law procured a gun and crept under the bed. When they were left alone she pulled the trigger, but she had aimed the weapon upward. The powder burned a sick man's toes, and in a rage he sprang from the bed, and, dragging the woman from beneath gave her a sound besting. In his anger Witherow forgot all about his hiccoughs, and when the doctors came, expecting to see a dying man, he was dining, and they had only the mother-in-laws bruises to look after.

June Social.

The regular monthly social by the ladies of the Lutheran congregation will be held Thursday evening, June 27th, at the home of Mr. Lunger Wian, on the Beaver farm, adjoining town on Bishop street. The public are cordially invited to be present and enjoy a pleasant evening. Abundant refreshments are being prepared. Chicken and waffles, strawberries, ice cream, cake, bananas, etc., will be served to those who call for them—from 6 o'clock until all are satisfied. Everybody come and bring your friends along.

The Veterans' Picnic.

Captain Michaels, Secretary of the Veterans' Association of Clinton county, states that the indications all point to a large attendance at the annual meeting and picnic to be held at Clintondale on August 15th. The badges for members of the association have been ordered, and will be lettered "Veteran Association of Clinton County." A meeting of the Executive Committee will be held July 25th to complete arrangements for the meeting.

Married.

At the Lutheran Parsonage in Bellefonte, corner Penn and High Sts., by Rev. Ed. Everett Hoshour, on the 20th day of June, 1895, Mr. Harry H. Rockey, Howard, Pa., and Miss Minnie M. Bietl, of Marion township, Centre county, Pa. Also by the same, at the same place, and on same date, Mr. J. Wallace Lytle, Scotia, Pa., and Miss Ida May Field, Gatesburg, Pa.

Gen. Beaver Appointed.

This morning Gen. James A. Beaver received notice from Governor Hastings of his appointment as one of the seven Superior Judges. The position will pay a salary of $7,500 a year, and will not require the entire attention of the incumbent. Gen. Beaver is to be congratulated on being appointed and the State is to be congratulated on getting a man of such wise ability.

Origin of a Saying.

The door nail in earlier times, says an antiquarian, was the plate on the door upon which the old fashioned knocker struck to arouse the inmates of the house. As the plate or nail was struck many more times than any other nail, it is assumed to be more dead than other nails. Hence the phrase "Dead as a door nail.

Flemington Excited.

Saturday evening, says the Lock Haven *Democrat*, the citizens of Flemington were aroused to a high state of indignation by the actions of George McGregor. McGregor, it is asserted, went home on Wood avenue, under the influence of liquor, and began abusing his wife. His mother remonstrated with him whereupon he began firing a revolver with threats that he would shoot the women. The wife fled from the house and up the boardwalk with the angry husband after her. He fired several times after the frightened woman, but fortunately missed her, but one of the balls came within a few inches of striking a young man named Wellers in the head, he standing on the boardwalk at the time. The wife finally fainted or fell on the sidewalk, when she was assisted into a neighbor's house. Constable Bob Myers then placed McGregor under arrest and took him before 'Squire Mitchell. After a delay four men who saw the shooting made information against the arrested man. The justice arraigned him on the charge of assault and battery. McGregor furnished bail in the sum of $300 for his appearance at the hearing Monday evening at seven o'clock. The actions of the son caused the mother to faint.

The Baccalaureate Sermon.

LOCK HAVEN, PA., June 23.

The first number of the commencement programme was rendered this evening by the delivery in the chapel of the baccalaeurate sermon, by Dr. E. D. Warfield, President of Lafayette College. The text was Eccles XII-12-"Too much study is a weariness of the flesh." "Solomon," said the preacher, "was the centre of the magnificence and splendor of the Jerusalem of his day. Himself he was a wise man and a poet; but at the close of his earthly life he was constrained to confess to the vanity of too much study that is not devoted to the glorification of God. Erasmus, the great light of the Reformation; Charles Darwin, the centre of the infidelity of a later day, are illustrations of the same truth. On the other hand, Saul of Tarsus, the Venerable Bede, Lord Alfred Tennyson, the poet, confessed, before the end, to a glorious delight in life because it had been spent to the service of the God of all."

The out-going seniors were exhorted to take these as their examples, and above all, Him who is the greatest of all teachers, physicians and preachers.

Marriage Licenses.

Wallace Lytle, of Potter township and Ida May Fields, of Gatesburg.

A. O. Goheen, of Tyrone, and Mary Gray of State College.

Harvey Crispin, of Snow Shoe, and Cora Frye, of Moshannon.

Isaac Gray Holt and Sallie A. Barr, of Julian.

L. D. Throp, of Boggs twp., and Annie McCauley, of Milesburg.

Wm. H. Twiggs, of Rush township, and Florence L. Jinks, of Osceola, Clearfield Co.

C. Jones, of Tyrone, and Stella Armor, of Bellefonte.

William M. Gilbert, of Marion township, and Frances Parker, of Boggs township.

Have Appealed for Aid.

Owing to the prevalence of typhoid fever in Coleville the people have appealed to the board of health of our town, who in turn have appealed to the State board o health to render immediate assistance in ascertaining the cause of the apparent epidemic. In the meantime the people of that ill-fated village should either boil the water before using it, or discontinue the use entirely until the State board of health has fully investigated and determined the cause of the disease. Mr. Wm. Shortlidge, president, and Mr. H. C. Quigley, secretary, of our town board of health, will be glad to render all the assistance they can until the state board takes action.

Don't Starch Embroidery.

Linen and denim, whether embroidered in white or colors, do not need any starch. They should be ironed when damp, and will then be sufficiently stiff. Wash them in lukewarm suds—never letting the water be really hot—and hang them where they will dry quickly, but not directly in the sun. In this way the color of the stuff and the material used in making will be preserved. Embroideries should always be ironed on the wrong side, and ironed until perfectly dry.

LETTER LIST.

The following letters remain in the Bellefonte P. O. uncalled for June 1895.

Hotel Spring Arctic, D. M. Bloom, Annie Braim, John Braim (2) C. H. Cross F. F. Cook, C. H. Eickbaum, John Fletcher, E. S. McNaur, F. H. Miller, R. G Ross, Isabelle Ryan, E. C. Shaffer F. Trix, Mrs. Thos. Terling, Grand Harvey, N. Casey Wheatery.

When called for please say advertised.

DAVID F. FORTNEY, P. M.

Prospecting for Minerals.

A new territory of mineral land is being developed in the Queen's Run region, the lands in question on which the prospecting is in progress being those of Mr. Geo. Crawford, of Pine Creek township. A four and a half foot vein of coal was found some time ago and now a shaft is being put down, which has reached a depth of 20 feet. Fire clay and mineral paint beds have been opened in the same locality.

Don't forget that dress was made for woman, not woman for dress.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

L. H. Normal Notes.

LOCK HAVEN, Pa., June 21, 1895.

This year's commencement exercises at the Central State Normal School mark the most successful epoch in its history, under the principalship of Dr. James Eldon. One of the largest classes ever graduated was passed this morning, numbering a total of 97, and by far the largest Junior class, numbering 150, by the State Board of Examiners, consisting of Deputy State Sup't Houck; Principal G. B. Haucher, of Kutztown; City Supts. Messimer, of Erie; Garrison, of Dubois; and County Supt's Gramley, Centre; Deveraux, Elk and Snyder, of Clinton; of the sub-Juniors 87 were passed. The Board in their announcement in the chapel this morning took turns in addressing the students, when they took occasion also to compliment them on the excellence of work done, and to congratulate the Principal and Faculty in their success in advancing the institution to its present high standard.

The commencement exercises will commence Sunday and continue till Wednesday evening. Dr. Ethelbert D. Warfield, of Lafayette College, will deliver the Baccalaureate sermon on Sunday, and Dr. Reed on Tuesday will address the alumni. Tuesday will be Field day, and Wednesday night the Senior ball will be held. A concert by distinguished musicians will be held Monday evening.

Miners Laid Off.

Last Saturday about 160 men in the employ of the Bell, Lewis & Yates Coal company, liying in the vicinity of Reynoldsville, were laid off for an indefinite period. The entire Hamilton mine was closed. In this mine there were over 100 men and boys at work. Very little work has been done there this year, and only four days during the month of May. At the Sprague mine, Rathmel, over sixty men were let go. Last Saturday about 220 men and boys worked there, but by this drawing out of employes there is not over 160 men there now. Since January 1st about 250 men who worked in the Sprague, Hamilton and Big Soldier Run mines have left, most of them being young men without families, and the 160 men just dismissed added to the sum just given a total of over 400 men who have left the mines in the vicinity of Reynoldsville and have sought work elsewhere. None have been hired during that time.—Reynoldsville Volunteer.

The Armor Estate Again.

The Armor estate appears to have gotten into Court again. For several years the will of Mrs. Armor was in dispute and when that was settled it was supposed the matter was ended. Letters of administration were taken out by two of the heirs, two of the other heirs going their security. Mr. David Butts, who is the guardian for other heirs filed a bill of exceptions against the administration claiming the bail given by them was inadequate. Upon those exceptions, Judge Love dismissed the administrators and decreed that a large bond should be filed. The same persons again took out administration letters and increased the bond to the sum specified by the court, and the same heirs went on the bond again. This Mr. Butts objects to and has cited the administrators into court again.

Col. Dunham on Festivals.

Annually about this time of the year all kinds of festivals ripen and are harvested by the summer girl and her best fellow. These festivals besides giving enjoyment to those in life's spring time yield a revenue to this or that church, this and that society which they would not receive without them and which the young folks cheerfully contribute for the sake of "having a good time" with those whom they admire most. From the surface it looks as though festivals of that kind are the result of a conspiracy by the older members of the organizations mentioned to save their pocketbooks.

Burglars at Mill Hall.

An attempt was made Friday night to blow open the safe in the office of W. H. Mann, lower axe factory, at Mill Hall. The burglars broke into Garth's wagon making shop and took therefrom some tools. They kicked in the door of the office. They succeeded in blowing off the outer door of the safe, but the inner door they could not open. The marks of the tools were plainly visible, but the hardened iron resisted all efforts. Had they succeeded in opening this door the burglars would have secured about sixty dollars. There is no clue to the thieves.

Throw Away Trusses

when our new method, without use of knife, is guaranted to permanently cure the worst cases of rupture. Send 10 cents in stamps for references and pamphlets, World's Dispensary Medical Association, Buffalo, N. Y. 6-27-1t

Thieves entered the general store of Joseph Cramer at Cramer, Indiana county, Friday night. A safe containing $40 in money and valuables was blown open and the money stolen.

Personal Pencilings.

Miss Edith Otto spent Sunday visiting friends in Unionville.

W. E. Gray, Esq., departed this morning for a brief business trip to Philadelphia.

J. M. Dale, Esq., has returned from an extended southern trip and is now ready for business again.

Mrs. John Kline, baby and nurse departed this morning for a brief visit among friends in the country.

Mr. Lester Schaeffer went to Philipsburg last evening to be present and participate in the races there to-day.

Mr. and Mrs. Harry Keller are rejoicing over the arrival of a young son in their household. Congratulations.

Mr. and Mrs. Herman Miller are entertaining friends from Bedford county at their home on East High street.

Mrs. Mattie Gerberich and son, of Winton, Iowa, are visiting at the home of C. T. Gerberich, on Thomas street.

Miss Grace Dubbs, departed Wednesday evening for Philipsburg, where she expects to spend a couple of weeks visiting friends.

County Commissioner James B. Strohm is a bachelor these days, his wife and family being on a visit with friends in Potter township.

Mrs. John Riley, sister and children, of Newark, N. J., are visiting Mrs. Riley's parents, Mr. and Mrs. M. S. Graham, on East High street.

Mrs. Kahn, a widow lady of Evansville, Ind., arrived in Bellefonte Wednesday evening and is now a guest at the home of A. Baum, on Bishop street.

Miss Emma Frazier, a brilliant and accomplished young lady of Wellsburg, West Va., is a guest at the home of Ira C. Mitchell, Esq., on Spring street.

On Saturday W. F. Reeder, wife and son will sail from New York with a party of Berwick friends for a month's tour of Europe. He will return August first.

Bert Bayard has been elected by the Christian Endeavor Society of Bellefonte, a delegate to the National convention which meets in Boston in July. Bert will depart for that city about the 8th proximo.

"Her Face Was Her Fortune."

This has been truly said of many women. Yet no face can long retain its beauty unless health is behind it. Woman is subject to so many distressing complaints that health and beauty are often prematurely impaired or lost. Fortunate it is that she has at hand so invaluable a friend as Dr. Pierce's Favorite Prescription. Multitudes of women throughout the land can personally testify, that it affords the only positive cure for the dire legion of "female weaknesses." Suffer and fade away no longer, when this remedy will bring you sure relief. It is the great restorer of health and therefore the best possible restorer of beauty. All druggists.

Creston, Iowa.

DR. R. V. PIERCE: *Sir*—My wife improved in health gradually from the time she commenced taking "Favorite Prescription" until now, She had been doing her own house work for the past four months. When she began taking it, she was scarcely able to be on her feet, she suffered so from uterine debility. I can heartily recommend it for such cases. 6-27-1t H. H. SNYDER.

They Beat Her.

In Saturday's paper we made mention of a sensation at Axe Mann. The particulars of the affair seem to be as follows, as near as they could be obtained: One day last week five women of that village, who had a spite at Michael Daugherty, undertook to catch him and flog him, but Michael was too wary for them. Failing in this they caught Mrs. Daugherty as she had driven the cow to water, knocked her off the bridge into the creek and then beat her with stones and clubs into insensibility. The chastisement was so severe that Mrs. Daugherty is now in a precarious condition and may yet die. No arrests have been made but if the whipping proves fatal, there undoubtedly will be. This is the first case in Centre county where women have thus dealt such summary punishment.

I WANT YOUR TRADE.

That is why I advertise. The special articles I want to call to your attention to-day is our

VIOLET WATER,

In 25c. bottles, it is delightful for the bath this hot weather—and our

ICE CREAM SODA

at 5c. a glass—both are refreshing call and try them at
